CZAR ATTACKED BY ASSASSIN

98 RAILROADS MAY BE TIED UP

ENGINE MEN VOTE ON STRIKE

55,000 Engineers and Firemen to Decide on Action

The Road Managements Claim Raise Asked Is Millions Annually

SAN FRANCISCO, June 18.—A strike vote that may result in the tying-up of every railroad west of the Mississippi river is being taken today by the 55,000 locomotive engineers and firemen of the ninety-eight roads involved. The total railroad mileage involved is 140,000 miles.

Negotiations looking to a settlement of the difficulties between the engineers and firemen on one side and the management of the railroads on the other have been in progress for weeks at Chicago, but have fallen through. There is said to be no hope of an agreement being reached. The negotiations were suspended today.

Among the ninety-eight railroads involved in the wage and labor controversy are the Southern Pacific, Western Pacific and Santa Fe.

The present wages of the 55,000 men total \$67,750,000 annually. If the demands of the men were granted it would, according to the railroad managers, add not less than \$33,000,000 a year to the wages paid.

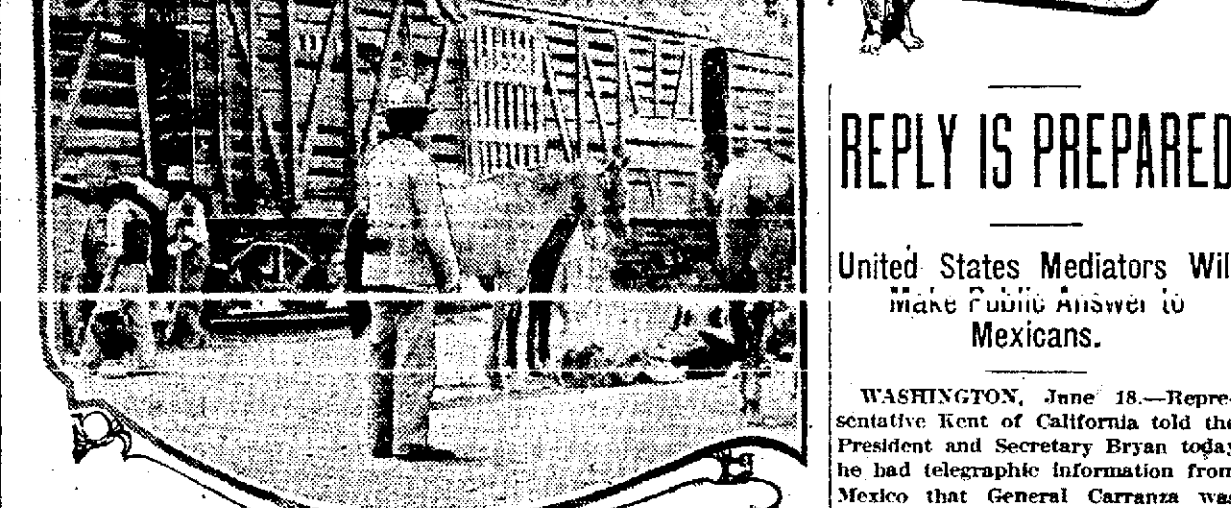

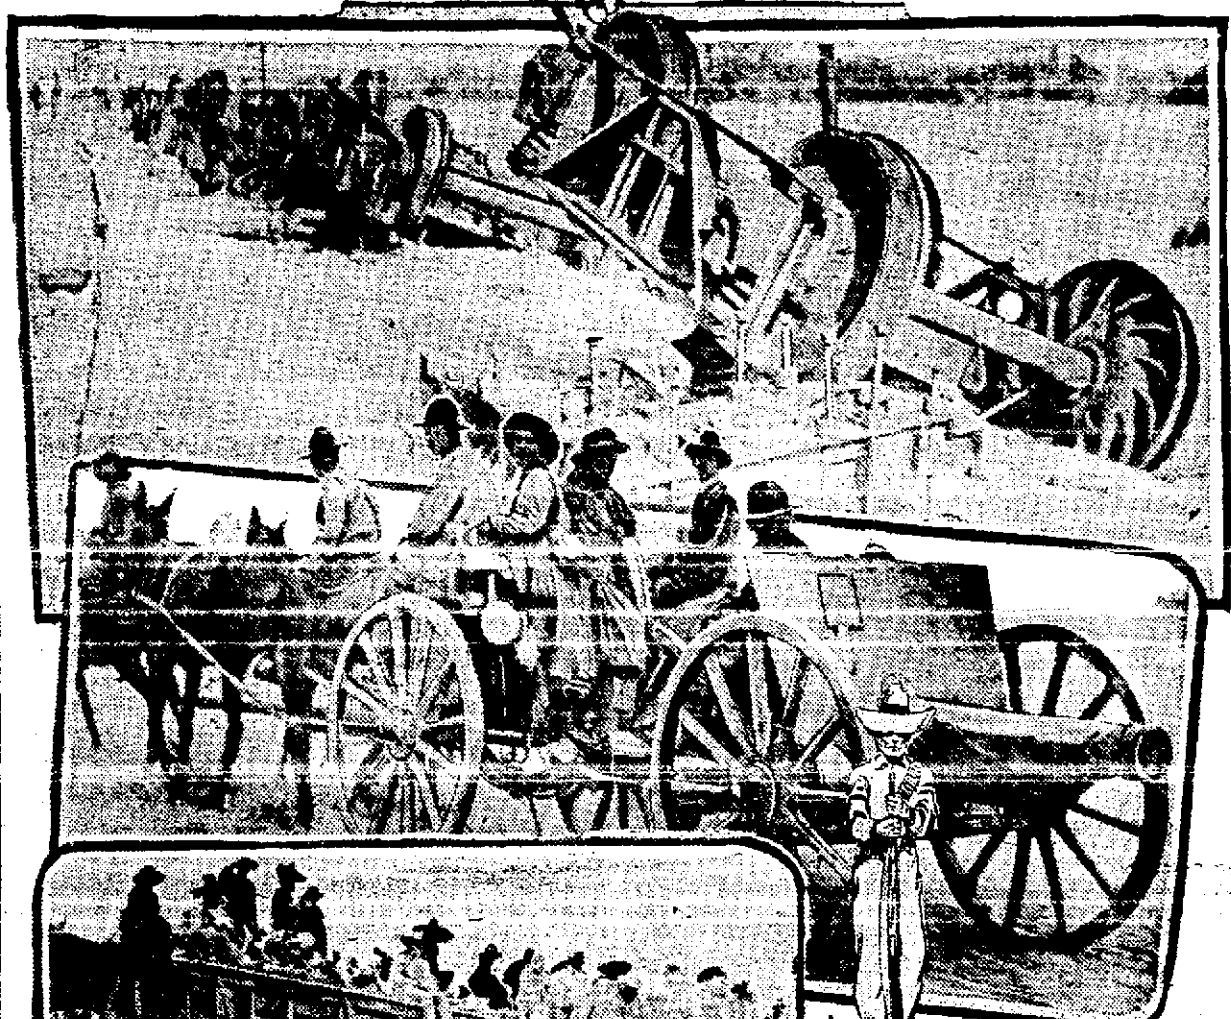

WHAT IS ASKED.

The employees are asking for a general revision of the rules of compensation and for more pay all along the line. They demand that the hours of work after which overtime shall be paid be reduced 50 per cent in the passenger service and 20 per cent in freight service.

They also ask the railroads to advance substantially the rate per 100 miles of service. They demand that on some of the engines two firemen be employed instead of only one as at present.

The railroad managers say that the demands of the men are unreasonable and cannot be complied with.

CARRANZA TO FLEE, IS REPORT READY TO ESCAPE TO LAREDO

SCENES IN REVOLUTION-DEVASTATED MEXICO: ABOVE, ONE OF THE BURNED AND DERAILLED TRAINS WHICH LINE MEXICAN TRACKS FOR MILES. MIDDLE, ARTILLERY PIECES CAPTURED FROM THE FEDERALS AT PAREDON AND BEING MOVED TO REBEL HEADQUARTERS. BELOW, SCENES AT TORREON, WHERE VILLA LOADED 17,000 TROOPS, MOVING THEM 200 MILES IN FOUR DAYS. THIS RECORD BEATS ALL AMERICAN MOBILIZATIONS. THESE PHOTOGRAPHS WERE TAKEN DURING HIS RECENT VISIT TO MEXICO BY HERMAN WHITTAKER, THE NOVELIST.

WRONG MAN IN CELL

Strange Tale of Substitution in Orient Impresses District Attorney.

SAN FRANCISCO, June 18.—Federal Judge Dooling this afternoon ordered the release of Albert Johannsen, serving a term in San Quentin prison and listed as Peter Grimes, United States Attorney John W. Preston joined in the motion for the man's release and an order was at once dispatched to the penitentiary.

RAPP 'PUREST MAN'

Former S. F. Woman Blames Mme. Schumann-Heink for Disgrace.

SAN FRANCISCO, June 18.—Members of San Francisco's smart set learned today that Mrs. Katherine E. Dean, "the woman" in the now famous Schumann-Heink divorce case, formerly lived in this city, where her mother and two married sisters are now residing.

REPLY IS PREPARED

United States Mediators Will Make Public Answer to Mexicans.

WASHINGTON, June 18.—Representative Kent of California told the President and Secretary Bryan today he had telegraphic information from Mexico that General Carranza was about to leave his headquarters and flee to Laredo, Texas. Kent did not give the name of his informant.

PREPARE U. S. REPLY.

NIAGARA FALLS, Ont., June 18.—The reply of the United States to the statement of the Mexican delegates to the peace conference that insistence on a constitutionalist for provisional president would be tantamount to abetting and even exacting fraud and violence at the elections, was being prepared today by Justice Lamar and was expected to be made public before night.

Although the American delegates were not offended at the publication of the Mexican statement there was considerable speculation as to the motive for making it public at this time. The statement, which was issued by Mr. Rabasa, was a paraphrase of a memorandum given to the American delegates last Friday. It was made known that the American delegation answered almost immediately the memorandum received from Rabasa.

RESPONSE IS DEFENSE.

The response was considered by the American delegates as an adequate defense of the position they had assumed toward the establishment of a new provisional government. It is said to declare that the Mexican delegation had not taken into consideration the fact that the United States had no candidate for permanent president of Mexico, and that under no circumstances would the American government be a party to any influence on the election of any country. Its preference for a constitutionalist for provisional president was due wholly to the conviction that a man from that party must be taken in order to insure the disarmament of all factions, that otherwise would

ROTARIANS ARE CITY'S GUESTS

Delegates to Texas Convention Are Entertained

Taken on Tour of City and Given Luncheon at Hotel

"Out where the handclasp is a little stronger. Out where the smile dwells a little longer. That's where the West begins."

Bound for Houston, Tex., and bearing with them the message of the great Pacific Coast, the Pacific Coast Rotarian delegates to the international convention of Rotary clubs, which convenes in the Texas city next week, today arrived in Oakland, to be royally received by the Oakland club, and to pick up the Oakland delegates who are to accompany them on the trip.

The entire Pacific Northwest was represented in the gathering of more than fifty prominent business men of the north, whose special pull into the Sixteenth-street depot at 6:15 o'clock this morning. Spokane, Seattle, Vancouver, Calgary, Portland, Tacoma and Stockton were represented in the gathering. Clad in their white uniforms and carrying the little canes which Vancouver sent as souvenirs for the trip, they made an imposing appearance as they filed into the waiting automobiles of the Oakland club.

Headed by L. Richardson, the Oakland committee received the delegates, entertaining them at breakfast, an automobile ride about the city and visit to the city hall, and later at a luncheon at the Hotel Oakland, where the breakfast in their honor was also given. This afternoon the guests departed for San Francisco, visiting the exposition before returning to embark on their special train for Texas. The convention will open in Houston Sunday, continuing until June 26.

Mary Frazer Not to Return to Oakland

Mary Frazer, the 17-year-old Honolulu girl who was taken into custody by the police in this city on telegraphic advice from Hawaii, was liberated this morning and taken by her brother to her aunt's home in this city once more.

(Continued on Page 2, Col. 3)

WOMEN'S FASHION MAY BE SUBJECT OF CHIEF'S TALK

Chief Petersen to the front against the convention of Grand Rapids, in which the chiefs of the country are assembled, is again talking women's dress.

Last year the Oakland chief stamped it against the slit skirt. What he's going to object to this year no one has learned yet, and the Oakland force is waiting with bated breath and receptive ear for news of the chief's views.

It started yesterday, according to news received by local policemen. One of the chiefs began a discussion of the fads and follies of women, and William A. Pinkerton of Chicago bolted.

"It's too silly to talk about," he declared. "This isn't a convention of modistes."

The police chiefs, however, declare that women's dress has a certain effect on certain crimes, and therefore must be considered. Last year Chief Petersen issued a scathing denunciation of the slit skirts, low necks and other fashions then the mode. This year fashions are a bit more modest.

JAIL YAWNS FOR AUTO DRIVER

Judge R. B. Tappan today sentenced M. A. Herriman, a business man of San Francisco, to spend ten days in the city prison without the alternative of a fine, for driving his automobile on the wrong side of the street and thereby running into Miss Marion Swayne, a 16-year-old girl, 232 Lakeshore avenue, who was riding her horse on the Lakeshore boulevard.

PILOT TRAIN IS WRECKED BY BOMB

Anarchists Try to Wipe Out the Royal Family

Party Is Near Death on Return From Visit to Rumania

BERLIN, June 18.—An attempt was made near Tschudovo, Russia, today to blow up the Russian imperial train, carrying the Emperor of Russia and his family. According to dispatches from St. Petersburg, a bomb was found on the track.

A postal train, which was preceding the imperial train as a pilot exploded the bomb. Many of the coaches were shattered and several persons injured.

The Emperor and his family on the imperial train passed a few minutes later and arrived at Tsarskoe-Selo without further incident. They were traveling from Kishinev on the return journey from their recent visit to King Charles of Rumania at Kustendje.

LASSEN IN ACTION

Mountain Develops Second Big Crater and Fours Fifth Fumes.

REDDING, June 18.—The eighth eruption of Mount Lassen, since it last became active on May 30, was distinctly visible here today at 11:20 a. m., notwithstanding a thick haze that obscured the outlines of the mountain, fifty miles away.

There seems to be no doubt that Mt. Lassen is now smoking from two craters—the original vent near the summit from which all the serious eruptions since May 30 have broken open, and a new bowl hole on the south slope, which nobody has dared explore to date.

The new vent was first reported two days ago in identical messages from separate stations of the Northern California Power Company. Today R. G. Milford, superintendent of the company, telephoned from a power house six miles from Manton and 25 miles distant from Mount Lassen, that dense smoke is pouring from the south slope. The activity seemed to him greater than any previously reported from that source.

Since the violent eruption of last Sunday nobody has ventured to explore the volcano above the timber line. Probably no visit will be made to either crater until they cease smoking.

(Continued on Page 2, Col. 3)

DELAY RATE CASE

Alameda County Commutation Rates to Be Decided in August.

SAN FRANCISCO (June 18).—The state railroad commission continued for an indefinite period this morning all further investigation into the claims set up by the Southern Pacific Company in its application to increase commutation and other fares between San Francisco and Alameda county points.

WRONG MAN IN CELL

Strange Tale of Substitution in Orient Impresses District Attorney.

SAN FRANCISCO, June 18.—Federal Judge Dooling this afternoon ordered the release of Albert Johannsen, serving a term in San Quentin prison and listed as Peter Grimes, United States Attorney John W. Preston joined in the motion for the man's release and an order was at once dispatched to the penitentiary.

RAPP 'PUREST MAN'

WILL ASK CONGRESS

For Equal Suffrage

WASHINGTON, June 18.—Officers of the National Woman's Suffrage Association, on June 17, will before Congress with resolutions urging the enactment of legislation providing for equal suffrage. Vice-President Marshall and Speaker Clark, together with Congressional committees have

CHIEF GIVES FIREMEN DAY OFF

Chief Ball and Commissioner
Turner Quarreled in Oppo-
sition to Ordinance.

Fire Chief Nicholas A. Ball and Commissioner of Public Health and Safety, Turner, were overruled by the city council today in the matter of granting members of the fire department one day off in each five days of the month.

Turner and Ball opposed giving the men the regular schedule of days off, although the change was made every member of the fire department, by the labor unions and by various civic and commercial bodies. Turner succeeded only in causing a delay of one day in the passage of the law.

The ordinance, which was introduced upon Turner's department, was introduced by the city council, and was passed by a vote of four to one in the city council tomorrow, all the commissioners with the exception of Turner being in favor of it. Turner has stated that he realized the justice of the request made by the firemen, but considered it would increase the tax rate.

"We'll be criticised if we do it," said Turner.

"Yes, and you'll be criticised if you don't do it," returned Ball. "So it's even. Don't you ever do anything that you think you'll be criticised for?"

TRIES TO DO RIGHT.

"I try to do what I think is right," said Turner. "But there are some things I think are right that I don't do because I'm afraid it would raise a rumpus."

The council took action after checking figures presented by Turner, who had obtained them from Fire Chief Ball as to the added expense. The commissioners decided that Ball's figures were excessive, and took those compiled by the city auditor.

Ball had declared, in a letter to Turner, that the granting of the petition of the firemen for the regulation schedule of days off would result in an increase in the first year of \$24,720 in the pay roll, and of \$26,980 in the second year. The figures submitted by City Auditor George Gross at the request of the city council, which were based on data concerning the number of men to be employed, and the figures submitted by Ball himself, were that the increase in the first year would amount to \$17,806 and in the second year \$19,806.

MEN CAN DOUBLE UP.

Commissioner Baccus stated that he believed that the change could be effected by careful management for \$13,500, an estimate prepared by Deputy District Attorney William Smith, who appeared for the firemen.

"The men can double up to fill the vacancy on days off in some instances," said Baccus. "What do they do now, Mr. Turner, for the days when men are off or sick?"

Turner did not answer.

"Don't you know that they double up on days off now in many of the fire houses, Mr. Turner?" Baccus continued.

"I am not on the witness stand," answered Turner.

"Well, don't you know that this change can be effected for less than the estimate presented by Chief Ball?" insisted Baccus.

"I know that I am opposed to it," returned Turner, becoming somewhat red in the face. "And that I cannot permit it to be passed with the appearance even by implication that I favor it."

BLAMES SINGER FOR DISGRACE

Mrs. Katherine Dean Confirms
Report She'll Wed William
Rapp, Jr.

(Continued From Page 1.)

Schumann-Heink is a free woman and I am dishonored. Every man who reads of the divorce travesty in Chicago thinks thus of me. No doubt some women have sympathy for me and charity in their hearts for my disgrace.

"But the vast majority think of me as a palmed woman—as a love pirate and an adventuress. This is the rule of society, it seems. My side of the story was not heard—the divorce courts would not permit it."

"It is hard for me to believe the possessor of a heavenly voice such as mine, Schumann-Heink enjoys could stoop to such glaring falsehoods and deception to ruin the life of an innocent woman. So while she goes on her way, clean and clear in the eyes of the law, I must hear an unjust stigma."

"My greatest offense, or crime, is the crime of being poor. I became a widow ten years ago and during that time have had to support my mother and a little nephew. These years have been mighty dark and discouraging, and the one ray of light was the letters from the man I love and am going to marry."

Mrs. Dean is English by birth, but a Californian by adoption. She is a pianist of note and has a splendid voice.

Troops Aiding Large Operators, Is Charge

WASHINGTON, June 18.—J. A. Ownby, representing independent coal operators in Colorado, told the House today that the federal troops in the state are not attempting to settle the strike because small concerns were being driven out of business. He told the President the federal troops were being used to protect the large operators.

Ownby brought to the House a letter from a miner in Colorado, dated June 10, in which the miner stated that the federal troops were being used to protect the large operators.

Ownby also brought to the House a letter from a miner in Colorado, dated June 10, in which the miner stated that the federal troops were being used to protect the large operators.

THROAT SPECIALIST FORBIDS COL. TO MAKE CAMPAIGN

Speeches.

SOUTHAMPTON, June 18.—"I will make just one reference to politics. I will not run for governor of New York."

Colonel Roosevelt today momentarily broke his rule of silence in regard to politics in order to make this declaration while he was proceeding on board the tender to embark on the Emperor for New York.

LONDON, June 18.—When Colonel Roosevelt arrived at Waterloo station today to take the steamer train for Southampton on his return trip to the United States a large crowd of friends had gathered to bid him farewell.

Colonel Roosevelt, who had arranged to embark on the Emperor, was in a cheerful mood. He said to the reporters:

"The way I have been treated by everybody. I was particularly pleased with the courtesy shown me when I addressed the Royal Geographical Society."

As the train steamed out of the station a photograph was taken of Colonel Roosevelt and Lord Charles Bessborough shaking hands.

Mrs. Nicholas Longworth will remain in England another week.

Colonel Roosevelt is suffering from an affection of the larynx as a direct result of the laryngitis which he contracted on his recent Brazilian trip.

ROTARIANS ARE CITY'S GUESTS

Boosters From Northwest Are
Entertained in
Oakland.

(Continued From Page 1)

Vancouver club, and one of the official delegates, acted as head of the band of booster pilgrims.

VIEW CITY.

The luncheon was the big social affair of the Rotarians' visit. The morning automobile ride took them through the downtown portions of Oakland and then over the Highland drive, to the University of California campus and then back to the city hall, where William Masterson, acting for Commissioner Harry S. Anderson, took them to the top of the building, whence they viewed the city.

You have a more wonderful city than I ever dreamed of," declared Rev. E. L. Pidgeon, president of the Vancouver Rotarians.

expedition to Houston. "I have always heard Oakland boasted when I tried to boost our city to an Oaklander. Now I know the landers are right. Of course we think we have some little town up there, too. We have no hills, though, and here it is seen how hills may beautify a city."

You have a remarkable city of homes," declared A. L. Kelly, also of Vancouver. "I notice getting the same idea up north. The bungalow makes the city—and that's the true truth about it."

Dr. Pidgeon, president of the Vancouver organization, is pastor of St. John's Presbyterian church of that city. Throughout the journey south he was the life of the party and is looked to as the leader of the train. He was enthusiastic over Oakland's prospects and over the future of the city from the factory standpoint.

"We want to get better acquainted with you people, we of the northwest," he declared, "for we can do each other a great deal of good."

W. G. Webster of the Vancouver delegation was also enthusiastic over the prospects of Oakland and the appearance of the city.

MEN OF NORTHWEST.

The delegation visiting Oakland included many of the best known men of the northwest.

Jesse W. Warren, one of the most noted architects of Victoria, is representing his city on the trip. Among the Seattle delegates are E. C. Braun, E. G. Shorrock, H. F. Conley and W. A. Graham. A. F. S. Steele represents Spokane.

Tacoma is represented in the booster delegation by A. H. Bassett, D. A. Young, C. E. Riggs, Estes Snedecor and M. R. Cummings represent Portland and W. O. Webster, Dr. Pidgeon, A. R. Kelly, P. Parsons and M. G. Brady represent Vancouver.

The California delegation consists of A. V. Faigut and George Hudson, who are already in the trip, and the Oakland delegates, who will join tomorrow. These are T. B. Bridges, D. L. Aronson, J. N. Burroughs, A. O. Lawrence and Robert Robertson. Other California delegates are from San Diego, San Jose, Los Angeles and Sacramento.

The San Francisco delegation joining the boosters' special tonight are J. H. Brunner, R. E. Rogers, C. H. Victor and C. E. Thatcher.

AUXILIARY VISITORS.

The special was met at the Sixteenth street depot on its arrival here today by about twenty automobiles in the hands of a committee headed by L. Richardson of the local club. Richardson was assisted as host by Lewis Gear, A. Schuchter, Robert Robertson, T. B. Bridges, Frank Leach, Jr., J. Lawrence, E. J. Day, Lawrence Moore and Robert Golding.

President Bridges of the Oakland club acted as toastmaster at the luncheon, at the same time saying farewell to his fellow clubmen, for the delegates will leave with the Northwestern boosters.

The planting of the Portland rose bush in the garden of the Hotel Oakland by the Portland Rotarians, the first Portland rose was planted by the Royal Rotarians two years ago, and this was placed near it. As the delegates stood about the Portland delegates, headed by Fred Spoerl, general committee man of the central organization, dug a hole and planted the Portland rose tree, which blossoms into a tree equal to those of the city of the north, which have won it fame.

The luncheon, served on the mezzanine floor, followed this ceremony.

LEAVE FOR SAN FRANCISCO.

The delegates left for San Francisco at 2:05, boarding trains at the Fourteenth and Franklin streets station. Arrived on the other side of the bay, they were turned over to the San Francisco Rotary club membership. A dinner will be served in their honor tonight at the San Francisco hotel, and at 8:10 they will leave for Houston.

The boosters, throughout the trip, have sung songs in honor of the different cities they represent and have yells for each city. These are printed in a booklet by the Portland club. The Portland boosters have many decorated badges. Spokane has miniature salmon tin attached to the coat by small fish hooks.

Considerable merriment was occasioned when these were shown at the luncheon today.

One hundred and fifty Rotarians sat around the tables in the South Room of the Hotel Oakland at the luncheon over which Thomas B. Bridges, president of the Oakland club, presided as toastmaster. Formal welcome was extended to the visitors by Robert Robertson, vice-president of the Pacific Coast division. Responses were made by various delegates from the boosters who expressed their appreciation of the hospitality and cordial welcome of Oakland.

West held the finest cities in America," declared Rev. E. L. Pidgeon of Vancouver, "but the town of Oakland this morning has been a revelation. Without being deluged by my own city, I must pay a just tribute to the magnificent municipality you have here. A man may love his own city without having any other man's sister."

"I have been greatly impressed by your public spirit. I have noted the great municipal undertakings which you have on hand, and I know that they indicate a will lead you very far in the future."

SURPRISES "SISTER."

Oakland is even more beautiful than the "City of Roses," said Mrs. Henderson.

25 OFFICIALS ARE REPORTED SHOT

Killed by Villa's Men in Seizure of Carranza's
Offices.

(Continued From Page 1)

menace the new Mexican government if a man not satisfactory to the constitutionalists should be installed in place of Huerta.

The position of the American government is that an agreement between the United States and Huerta on a neutral would be valueless unless the great body of constitutionalist troops was ready to accept him. The Mexican delegation refused the suggestion made in some quarters to effect the issuance of their statement was a defense which anticipated the failure of the negotiations.

They said they honestly felt an expression of their opinion might be publicly approved and thus would influence the American government.

REPORT OFFICIALS SHOT.

sumed tomorrow on the return of Minister Naon of Argentina it will be definitely determined whether, in view of past disagreements, the conferences should be prolonged for indefinite consideration of a new offer by the two sets of delegates or whether there is a chance of an agreement if the mediators should submit some names they have in reserve.

The Mexican delegation gave out a report from their consul at El Paso.

Carranza officials were shot by Villa's men in connection with the forcible seizure of the business offices of the constitutionalist government at Juarez. The number of women had been placed in jail there, along with the men taken.

ULTIMATUM TO CARRANZA.

EAGLE PASS, Texas, June 18.—That General Villa has presented an ultimatum to General Carranza demanding the absolute separation of the two sets of delegates, and the substitution of a government of the constitutionalist headquarters in Piedras Negras today. A committee of three officers was said now to be in conference with General Carranza at Saltillo, presenting General Villa's plan.

According to constitutionalist officers at Piedras Negras, his plan is as follows:

FIRST—Villa to have complete control of the army and to direct the military policy without interference, while Carranza is to have control of the civil government and foreign relations.

Second—Villa agrees to recognize Carranza as his superior, provided Carranza agrees to his recognition as supreme military chief.

Third—The promotion of officers and the disposition of their commands to be in Villa's hands. Constitutionalists expressed their belief that if these demands were granted General Villa would proceed with the campaign and take personal command of the forces in the field.

Otherwise, they said, they thought he would persist in his resignation and refuse to take command at such time as he could serve the constitutionalist cause without friction.

The third clause of Villa's alleged ultimatum was accepted here as a direct answer to General Carranza's promotion of General Natividad Robles to command the center and his subsequent disastrous attack on Zacatecas.

HONOR NAVY SUICIDE.

ON BOARD U. S. S. CALIFORNIA, MAZATLAN, Mexico, June 17, by wireless to San Diego, Cal., June 18.—The federal gunboat Guerrero, which sank the constitutionalist gunboat Tampico, arrived today at Mazatlan with her colors at half-mast in honor of Captain Malpico of the vanquished vessel, who committed suicide. Constitutionalists picked up after the sinking of the Tampico a number of men who were left behind at such time as he could serve the constitutionalist cause without friction.

The third clause of Villa's alleged ultimatum was accepted here as a direct answer to General Carranza's promotion of General Natividad Robles to command the center and his subsequent disastrous attack on Zacatecas.

Captain Malpico formerly was a lieutenant in the Mexican navy and toward him and his men the Guerrero's crew entertained a brotherly feeling.

As a lieutenant in the Mexican navy, Captain Malpico commanded the Tampico, while she was still a federal gunboat, stationed last summer at Mazatlan. He was taken by the hands of the constitutionalists and the surrender of the Tampico was the price of her hand by the daimsel's father.

When the Tampico was taken by the constitutionalists, a number of the crew attempted to escape in a launch. The Guerrero gave chase, but did not open fire. Instead she overhauled and captured the launch, but as it was being brought alongside Malpico and his chief engineer committed suicide.

THURTEEN TO OFFICER.

In honor of the gallant fight he had made and in token of their former friendship the commander of the Guerrero lowered his flag to half-mast.

The United States cruiser New Orleans and the destroyer Perry, which witnessed the battle and aided in the capture of the Tampico, were in the bay.

Oakland delegates who will attend the convention in Houston are Thomas B. Bridges, Dave L. Aronson, J. N. Burroughs, Volker O. Lawrence and Robert Robertson.

Proceeding the luncheon, the Portland delegates conducted a rose-planting ceremony in the court of the Hotel Oakland. A flowering rose bush, one of the hand-made varieties for which the "City of Roses" is famed, was planted in the central parterre and dedicated to the Oakland Rotary club.

"This rose which we present to you is a symbol of the spirit that binds all true Rotarians in fellowship," said N. G. Pike. "We leave it with you as a perpetual testimony of our visit and a reminder of the principles of our organization. As the flower of the rose is a thing of beauty that makes us forget its thorns, so in the human being the spirit of brotherly affection and co-operation is the finest blossom of the mind."

The delegates who will attend the convention of a great circle about the court, in which all the Rotarians stood linked arm to shoulder, while a cheer was given for Oakland and the Rotary club.

CLAY at 14TH and 15TH

rescued members of the Tampico's crew, arrived here with the Guerrero, the New Orleans having six wounded men from the Tampico aboard.

When the Tampico began to sink Captain Malpico and a number of the crew attempted to escape in a launch. The Guerrero gave chase, but did not open fire. Instead she overhauled and captured the launch, but as it was being brought alongside Malpico and his chief engineer committed suicide.

It would be a sufficient explanation for the attitude of the United States.

AMERICAN RELEASED.

WASHINGTON, June 18.—F. J. Smith, an American imprisoned in Tonala, state of Chiapas, several weeks, pending investigation of the killing of some Mexicans, has been released. Rear-Admiral Badger reported that Smith and his family were in Guatemala.

CRUISERS BRING CONSULS.

TAMPIO, June 17 (via Laredo, Tex., June 18).—The German cruiser Bresden and the British cruiser Bristol returned from Vera Cruz today bringing the German and British consuls, who went for conferences with their ministers. Both had a long conference with the Spanish consul here immediately on arrival relative to the attitude of the Constitutionalists authorities toward Spaniards.

The currency (lanine) has not been relieved and continues a detriment to all business. Boxes of celluloid poker chips are now circulating at small change.

OBREGON MOBILIZES.

DOUGLAS, Ariz., June 18.—General Alvaro Obregon wired to Constitutional representatives here today that he was rapidly concentrating 10,000 men around Guadaluajara for the attack on that city. Obregon is well equipped with artillery.

OVERCOME BY GAS. SHE

LIES FOR WHOLE DAY

SAN FRANCISCO, June 18.—Miss Cornelia Eschell, a young chambermaid of 1009 Washington street, was found unconscious with gas asphyxiation this afternoon and was carried to the Central Emergency hospital. After being revived she said she had retired last night and sat up in bed to read. The wind blew out the gas and she fell off to sleep. The fact that her window was open, allowing the fumes to escape, saved her life. She is the sole support of two little sisters.

RUNS 3 BLOCKS TO LEARN IF BONES ARE BROKEN.

After being run over by a wagon this morning D. D. Watkins, 28 years of age, living at 9504 Walnut street, Elmhurst, got up and ran three blocks to find out if any bones had been broken. He arrived at the emergency hospital almost out of breath and explained the situation to Steward Davidson, who promptly diagnosed his case as OK with the exception of slight bruises and lacerations. Watkins is an expressman and he was thrown from his wagon, the wheels passing over his legs.

KELLY'S ARMY REFUSED ENTRY INTO ELKINS, W. Va.

ELKINS, W. Va., June 18.—"Col." D. C. McLennon and "Capt." O. Martin, officers of General Kelly's "army" of the unemployed, marching from California to Washington, walked into Elkton today from their camp, two miles away, and asked permission to speak on the streets and collect funds. They said the "army" money. Permission was denied and the officers were ordered not to bring the "army" into town. The "army" was ordered out of town. The "army" was ordered out of town.

LIES FOR WHOLE DAY

SAN FRANCISCO, June 18.—Miss Cornelia Eschell, a young chambermaid of 1009 Washington street, was found unconscious with gas asphyxiation this afternoon and was carried to the Central Emergency hospital. After being revived she said she had retired last night and sat up in bed to read. The wind blew out the gas and she fell off to sleep. The fact that her window was open, allowing the fumes to escape, saved her life. She is the sole support of two little sisters.

MAN SERVES TERM FOR WILY FORGER

Shanghaied, He Says, in Nagasaki, and Sent to San Quentin.

(Continued From Page 1)

next morning he found himself at sea, a prisoner on the army transport Sheridan.

IDENTIFIES PICTURE.

Nobody understood him when he tried to make himself known and he was duly delivered as Rogers at San Quentin, there to serve three years for a sentence imposed by the treaty court at Shanghai for forgery. His ultimate chance to be a fellow countryman and through him he got a hearing. Acting on the information, two days after the Sheridan arrived from the Philippines via Japan and Honolulu.

Today Johannsen was given the album of prisoners' portraits and remembered. As soon as he came on Rogers' portrait he said: "That's one of the men I drank with in Nagasaki."

Rogers served a year in San Quentin for forgery. When released he eluded the interest of Captain Robert Dollar, the foremost merchant of San Francisco in the China trade, who sent him to China in a clerical position on one of his vessels. But Rogers had not reformed. He posed as Captain Dollar's son, began to pass bad checks and was arrested in San Francisco and sentenced to three years in San Quentin. An officer of the court was to have taken him to Nagasaki, but he was to be turned over to the Sheridan.

At that point the facts end and theory begins.

HOW HE DID IT.

The prisoner's counsel believes Rogers got his guardian drunk, slipped a sleeping drug in Johannsen's drink—they took a little alkali—and personally delivered him late at night on board the Sheridan, turning over the papers he had stolen from the drunken deputy, who perhaps had also been drugged, and seeking his own delivery.

One of the federal prisoners who saw the alleged Rogers come aboard said he either was very drunk or drugged. Two men delivered him near midnight to a petty officer, not to J. P. Spurr in charge of prisoners.

This story had not been investigated by District Attorney Preston when he talked to Captain Spurr, but it will be looked into closely. The captain also said that he supposed Rogers seemed dazed and very muzzy when he first saw him.

SEEK HIS RELEASE.

Application for Johannsen's release on habeas corpus was made today by Judge Dowling of the United States District Court.

Further confirmation of the substitution theory turned up today when it became known that two days out from Honolulu the Sheridan received a wireless from the United States Consul at Shanghai, asking if Rogers had been received at Nagasaki. The message caused some puzzlement at the time, but it was answered with a routine affirmative. Now it begins to appear that some deluded had at that time already made itself felt at Shanghai.

Mob Tries to Drive Out Woman; Wounds Two

WEST PLAINS, Mo., June 13.—The second attempt of a mob of about 200 mountaineers to drive out Mrs. Paralee Collins from this section of the country culminated last night in the probable fatal shooting of Isaac Collins, the woman's cousin, and the wounding of Mrs. Collins and the burning of their cabin.

A month ago a mob appeared at the Collins home near Horton, this county, and after whipping Mrs. Paralee Collins, burned the home of Jane Collins, a relative with whom she lived. Mrs. Paralee Collins took refuge with her cousin in another cabin.

In the attack last night Isaac Collins and his cousin were killed up by the mob when they attempted to escape. An alleged midnight ride of the women caused the outbreak.

Jesuit Medical College To Cost Many Millions

ST. LOUIS, June 13.—Plans for negotiating a long-term loan with which to begin the building of one of the greatest medical colleges in the world are being considered by the faculty of St. Louis University, a Jesuit college, which ultimately will come into possession of the estate of James Campbell, the value of which is estimated at twenty to forty million dollars, according to a story printed here today.

By the terms of the Campbell will, the entire estate was to be used for the building of a hospital and for the advancement of medical science, as soon as Campbell's widow and only daughter die, or if the daughter has children, twenty-one years after the death of the daughter.

Ninety Days in Jail For Roasting Lawyer

J. E. Whinnery, publisher of a small journal known as "The Jury," was today found guilty of criminal libel before Judge R. B. Tappan and sentenced to spend ninety days in the city prison without the alternative of a fine.

Judge Tappan offered to dismiss the case before it went to trial if Whinnery would make a public apology for his libelous statements, but Whinnery refused.

The trial was the upshot of a long controversy which commenced several years ago in a divorce suit between Whinnery and his wife, which was decided against Whinnery by Judge Buckles. Whinnery then attempted to have Buckles impeached before the state legislature, but failed.

Recently Whinnery attacked his attorney, M. L. Rawson, in the columns of his publication, declaring that Rawson had played him false in handling the case and had played into the hands of Mrs. Whinnery. Rawson caused Whinnery's arrest immediately on the libel charge.

Union Fight Is Won By Insurgent Fighters

BUTTE, June 13.—Two meetings of the insurgents of the Butte local, Western Federation of Miners, have been called for today and tonight, at which reports of the voting on the question of showing cards of the Western Federation of Miners at mines will be made, and the veto will be announced officially.

The voting on the question, as announced early today was 834 in favor of abolishing the card showing, while 243 ballots were recorded in favor of the cards. The meetings will also consider what action will be taken in regard to organizing a new union.

Two meetings must be held because of the two shifts of miners working in the mines. The insurgents announced that in the interest of peace no parade is to be held today in celebration of the overwhelming victory of the rescinding of the rule regarding cards, which was one of the main causes of the split in the union of metal miners.

Receiver Asked For In Lorimer's Bank

CHICAGO, June 13.—Application for a receiver for the La Salle Street Trust and Savings Bank, the Lorimer-Munday bank, was made today by Attorney General George W. W. Ladd in the Cook county Circuit Court.

The petition was based on the report of the state bank examiner, showing a depleted condition of the bank assets.

The petition which was filed in the name of State Auditor James J. Brady was taken before Circuit Judge Wides, who set the hearing for tomorrow. Based on the report of B. H. Harkin, bank examiner, who closed the La Salle State Bank last Friday, the petition recites that the institution is insolvent and irretrievably insolvent, and that the appointment of a receiver is immediately necessary to protect the remaining assets for the benefit of the depositors and creditors.

The document lists the assets and liabilities of the bank and declares that the book values exceeded the assets, particularly bonds held and outstanding loans, greatly exceeding their actual value. Of bonds listed by the bank as worth \$357,355 are of value.

Wilson Disavows Aim To Sway Congress

WASHINGTON, June 13.—President Wilson told callers today that in making letters public earlier in the week to emphasize his view that a "psychological depression" was being created, he did so without thought of influencing Congress on the legislative program, but solely to inform the public of the method being pursued by those opposed to the administration. He added that his mail any day brought expressions of prosperity throughout the country.

The President said that he had received encouraging reports on the prospects for early passage of the trust bills through the Senate and that there were numerous indications that the bills will get the support of a number of Republicans.

Negroes Cheer Chief Of 'Back to Africa'

GALVESTON, June 13.—The steamship Liberia, on which Alfred C. Sam, leader of the "back to Africa" movement among negroes in this country, proposes to take several hundred negroes to the old Coast of Africa, arrived here today.

The arrival of the vessel was the occasion for much rejoicing among several hundred followers of "Chief Sam," who have been here for several days.

It is not known when the Liberia will sail for Africa. "Chief Sam" is said to be on board.

Assemblyman Wall Victim of Pneumonia

STOCKTON, Cal., June 13.—Assemblyman W. C. Wall died last night following an attack of pneumonia, which first made its symptoms felt three days ago. Mr. Wall's friends circulated his petitions yesterday for a place on the ballot as the Democratic candidate for assemblyman. His death last night was quite unexpected.

OFFICIAL SETS FREE TELLER FROM PRISON

ST. LOUIS, June 13.—Harry C. Baseler, former paying teller of the Third National Bank here, who was sentenced on June 11, 1932, to five years imprisonment for embezzling \$15,000 from the bank, has obtained his freedom and has been with his family for 10 days.

This became known today from United States Attorney Houts. Baseler's attorney had telegraphed him of the commutation of his client's sentence. Houts said he had not been informed of the release of Baseler.

After reports that a high government official had interceded in his behalf were circulated Baseler said he understood the Rev. Harris Gregg, pastor of a Presby-

KAHN'S Most Profitable Business Day of the Week for Our Customers KAHN'S

MRS. A. D. SHORB SEEKING DIVORCE

Wife of Millionaire Mining and Timber Man Tells of Extreme Cruelties.

SAN FRANCISCO, June 13.—Mrs. Adelaide Shorb, wife of Dr. McE. Shorb, millionaire mining and timber man, with large interests in Southern California and Mexico, sat upon the witness stand before Superior Judge Van Nostrand this morning with all eyes riveted upon her as she testified in a suit for divorce. When she had completed her story in which she incorporated an allegation of extreme cruelty not contained in her original complaint, she was asked to answer a request of Attorney Charles A. Lee representing the defendant. It is said that Shorb intends to fight for his beautiful wife and that he is opposed to the divorce action and anxious, if possible, to make a counter showing which will prevent the granting of the decree.

Mrs. Shorb is a member of the Day family, well and prominently known in New York City, and the marriage of the couple was the result of a romance begun early in 1904. December 19 of that year they were married at an elaborate ceremony.

She declared that her husband had left her May 10, 1914, and added that while they were residing on Green street, he had drawn a pistol on her and threatened to kill her. She was corroborated by her maid, Josephine Brown, who testified to

the alleged assault and the desertion. The wife asks the custody of the two children, Yvonne Adelaide Shorb, who is attending Miss Hamilton's school, and Mary Day Shorb.

Shorb is the son of Mrs. Marie J. Shorb, formerly Miss Marie J. Yorba, a member of the Yorba family, pioneers of Southern California. He is residing with his mother at her home on Broadway, while his wife is sejourning at 3115 California street, with the children.

The members of Gen. Guy V. Henry Camp, No. 3, U. S. W. V., Department of the Columbia, met at their regular meeting Saturday evening, June 13, at which time the ladies entitled to the honor were mustered into the auxiliary.

The officers elected and installed were: Mrs. Fannie Wall, president; Mrs. Gertrude Gilmore, senior vice-president; Mrs. M. E. Fuller Jr., vice-president; conductress, Miss Frances Banks; assistant conductress, Mrs. Lena Osborne; historian, Mrs. Virginia Hall of Vallejo; patriot instructor, Mrs. Mary Starr; secretary, Mrs. Florence Wall Murry; treasurer, Mrs. Molly Green; color bearer, Mrs. Kenerly; Mrs. Thornton and Mrs. Bramlette; guard, Mrs. Elizabeth Broyles.

of both California and Columbia. The following officers were escorted to the platform David Holden, commander department of the Columbia; G. W. Posey, dept. inspector; J. E. Green, dept. adjutant; Commander Westcott of E. H. Liscum Camp No. 7, Department of California, and many others of both departments. Short speeches were made by the above named officers and the president of the auxiliary.

The auxiliary was mustered in with 30 members, all of whom afterward adjourned to the banquet room, where a feast was enjoyed.

Former U. S. Senator Hiscock Passes Away

SYRACUSE, N. Y., June 13.—Former United States Senator Frank Hiscock died suddenly here today. He had been in ill health for some time. Mr. Hiscock was born at Pompey, N. Y., in 1834. He was one of the many who supported the Republican nomination for the Presidency in 1888.

NILE CLUB HEARS FISHER LECTURE

Manager of Board of P. P. I. E. Lecturer Addresses Large Oakland Gathering.

Dr. J. V. Fisher, manager of the board of lectures of the P. P. I. E., spoke at the Nile Club last night before a deeply interested gathering of representative Oaklanders. Motion pictures of the visit paid by Oakland boosters to the fair grounds on the first ferry boat to dock there from this side were shown for the first time, likewise interesting and instructive films depicting the extent of the work and the progress of construction. The lecture was given in the auditorium and is the first of 1200 illustrated addresses which will be given all over the country in the next twelve weeks.

Frank Leach Jr., H. C. Capwell and W. D. Egbert, commissioner of the California building, also spoke during the evening. So pleased were Dr. Fisher's hearers that efforts will be made to have the lecture repeated a little later at some place open to the public.

WOULD DELAY OPERATION OF PROHIBITION LAW

Santa Cruz county. The initiative provides that if the statewide prohibition measure, prohibiting the manufacture, sale or giving away of intoxicating liquors should pass, the operation of it upon the sale of liquor in California should be suspended until February 15, 1915. The original measure provides the act shall go into operation five days after its passage.

The amending petition also provides that the clause prohibiting the manufacture and transportation of intoxicating liquors for delivery outside of California shall be suspended until January 1, 1915. Statistician Cremin, to settle the mooted question whether an amendment may go upon a ballot to amend another measure not yet passed, has asked an opinion of Attorney General Webb, Assistant Attorney General and the State Statistician.

PELLGRINI CASE DISMISSED. SAN FRANCISCO, June 13.—The case against Lallo Pelligrini was dismissed by Superior Judge Duine today on motion of the district attorney. Pelligrini was charged with grand larceny for the alleged theft of \$2500 from John Minetti. He was badly wounded by the state as a witness in connection with the breaking up of the so-called police bunco ring and surrendered himself after those cases had been disposed of. The case was dismissed for lack of evidence.

TODAY IN CONGRESS. WASHINGTON, June 13.—The SENATE. Met at noon. The HOUSE. Debate was resumed on the pending civil appropriation bill.

CHINESE ARTISANS PITCH TENT HERE

Skilled Men, Picked to Construct Building at Exposition Grounds, Arrive.

SAN FRANCISCO, June 18.—The first foreigners to establish themselves on the Panama-Pacific Exposition grounds took their first steps here today. They are peaceful invaders in the shape of Chinese artisans, who have been brought across the Pacific to construct a Chinese building. Twenty-one men were in the party, paraded by the immigration officers and others are coming later. In all, thirty skilled men have been picked for the work.

A regular Oriental village has been established on the fair site. The workers have pitched their tents and established their plant. Two hours after their landing from Angel Island this morning they were eating their breakfast in the beach. The tools and implements to be used in their work and a large quantity of rice and other supplies they brought with them. They will live in the tents.

Imminent abode. They will remain camped on the grounds and will only be allowed outside of the exposition fences by a special permit of Hsi Chen Hwang, the Chinese exposition commissioner, who is in charge of the construction work.

The Chinese formed an interesting procession as they marched along the water front this morning and quite a crowd gathered to watch them. Many of those looking on had never before seen Chinese.

BUTTE FACTIONS MAY AGAIN UNITE

Efforts Resumed Toward Arbitration of Differences in Federation Ranks.

BUTTE, June 18.—With two meetings of the secessionists of the Butte local of the Western Federation of Miners called for today and tonight, efforts were resumed to arbitrate the differences of the two factions. The heavy vote in favor of abolishing the presentation of union cards at the mines stirred the men who favor arbitration to greater efforts.

At St. Donoghue, president of the State Federation of Labor, is looked to by many as the man to take a leading part in trying to bring the warring factions together. The meetings of today are expected to stimulate the movement of the secessionists to form a new union. William O'Brien will be temporary chairman of the meetings. He has announced that an independent organization with no affiliation with the Western Federation will be the result of the heavy vote of last night. A committee of Butte local gave out a statement saying the operating companies in Butte had said that the contracts with the Butte local would be respected. If an independent union is formed the executive board of the federation, the statement said, will be compelled to deal with the engineers and members of the other unions affiliated with the Western Federation. This would result in the closing of the mines.

DIPLOMAT AND CABINET MAN RECEIVE DEGREES

CAMBRIDGE, Mass. June 18.—Romulo S. Noyon, Argentine Minister to the United States, and David Charles Hoggan, Secretary of Agriculture, were among those who received degrees of Doctor of Laws from Harvard University at its commencement today.

ARRAIGNED ON CHARGE OF PASSING BAD CHECK

Its Watson, a laborer, was arraigned this morning before Judge George Samuels on a charge of having passed a fictitious check for \$20 on the firm of Chevrolet Bros., Motor dealers of Eighth and Broadway. When Patrolman Bannister arrested Watson he found a number of bad checks concealed in the man's hatbox. Inspectors Hodgkins and Dutton worked on the case.

CHARGE CRIME IN PITTSBURGH

Frank Marchetti, a laborer, was arrested last night in San Francisco by Marshall J. E. Fahy of Pittsburgh on a charge of burglary, said to have been committed in Pittsburgh. He has been taken to that city for trial.

ROMEO TURNS COURTIER ACTRESS IS HIS JULIET

ROMEO the Great, the Orpheum's educated monkey, is very like a man in some ways; and his latest imitation of his peccadillo cousin is stirring.

He has been stirring all week with little Muggins Davies, clever singer and dancer, and the two have struck up a close friendship. He follows her about the theater almost

ROMEO, THE FLIRTATIOUS, AND MUGGINS DAVIES, WHO HAS BECOME A CLOSE FRIEND OF THE EDUCATED SIMIAN.

like a dog, and whines when she leaves him. "It's the first time Romeo ever cared for a woman," declares his trainer. "I cannot understand it." "Oh, it's just a matter of a couple of bags of peanuts," declared Miss Davies. "In fact it's not even a platonic friendship. Just gastronomic, as far as Romeo's concerned, but he doesn't like me a little bit—don't you Romeo?"

And Romeo grinned and nodded. Comedy is king on the Oakland Orpheum stage this week, when Ed and the seven Little Toys troop out and go through a series of the most comical capers imaginable. Eddie Foy, of course, is known as the king of funmakers the country over. When the seven Little Toys are added to the first six, the result is a complete routing of the blues.

The vaudeville bill this week is unusually good. "Muggins" Davies return to receive a riotous welcome.

Romeo, the Great, the legitimate successor to Charles the First, who was probably the greatest chimpanzee in the world, dazzles the crowds with his smartness.

Annie Kent is a cute little maiden who has a lot of funny stunts to exhibit. Harry B. Lester, known as "the jovial jester," is a first-class comedian whose imitations and witty quips all help him to register a big success.

A special feature added to the bill is the engagement of the Oakland School Boys' Exposition band of seventy-five musicians. These lads play like veterans under the direction of Professor John Smith. The band will play with some wonderful feats of stunts, and (terrible), the Spanish dancer opens the program with some characteristic dances of old Seville.

MACDONOUGH

"Their Market Value" is the striking title of Willard Mack's latest play, which will be at the Macdonough Theater, with Willard Mack and Marjorie Rameau heading a strong cast of players. In the supporting company will be found the well-known names of Eleanor Haber, Claire Sinclair, Charles Compton, John Livingston, Edwin Redding, Robert McKim and S. A. Burton.

The play which has enjoyed the longest run of any play produced in this country this season comes to the Macdonough Theater Tuesday night, when William Hodge will be seen for four nights in the leading role, "The Road to Happiness."

Supporting Hodge will be seen the same cast that played with him through the long Chicago run, and including Miss Rhea Greenwood, Miss Gertrude Hitz, Miss Marie Haynes, Miss Eugene Woodward, Scott Cooper, George Lund, Adin B. Wilson and A. L. Erenas.

A matinee will be given on Wednesday, at which the best seats will be only one dollar. The Tentmaker, the New York success, in which Guy Bates Post will come to the Macdonough on June 23, is a Persian love play based on the life, times and Rubaiyat of Omar Khayyam.

PANTAGES

Frank Bush, known to vaudeville as America's story teller, is one of the best features of this week's Pantages bill. Bush is of the old variety days, and 25 years ago was out this way as the top feature act of the Howard Atherton Company, the Hopkins, the Hopkins and the noted Pat Rellin's All-Star Variety Shows.

Interpretive dances are being given an elaborate setting in "The Gladiator and the Nymph" or "The Garden of Passion" as presented by J. Edwin Crapo and his female dance troupes. Crapo is one of the most perfectly developed men in the world. His figure was selected by the world's leading sculptors to represent America in the 1904 St. Louis Exposition.

Lovers of good music will enjoy a treat if they hear the Four Military Maids this week. The young women play upon brass instruments. Leaders Stevens and George Cooper and company in "Road, Kindly Light," Brown and Jackson in a skit entitled "The Clubman and the Suffragette," Pony Moore's musical comedy "The John Tars," and first-run Keystone comedy pictures are other numbers on the program.

LOVE AND BROADWAY, OAKLAND.

KNOWLAND WILL WELCOME NATIVES

Congressman to Be Principal Speaker on Saturday at Big Carnival of States.

Congressman Joseph R. Knowland will be the principal speaker on Saturday evening of this week at the closing of the big Carnival of States, which entered upon its second week Monday in the city of Los Angeles. Saturday is California Day at the carnival and Knowland has been selected to represent the Native Sons in welcoming natives of all the states to become Californians. W. F. Calderwood of Los Angeles will be chairman of the evening.

Mrs. Knowland made her debut as a stump speaker at the California day held in Richmond Tuesday night and was accorded an overwhelming ovation. She was cheered by both men and women and while her husband is considered a finished speaker Mrs. Knowland proved herself to be the real campaign speaker. She was the last speaker on the program and at the close of her speech a man and

ulate her on her speech. From the impression made by Mrs. Knowland there is not the slightest doubt but that she will be a most valuable asset in the Knowland campaign and will make more enthusiastic supporters for her husband among strangers than he will himself.

FEDERAL EMPLOYEE IS FOUND DEAD IN ROOM

Two bodies of employees of the United States Health Department, who were found in the rooming house last night and removed to the branch morgue. It is thought that Butler died from natural causes. An inquest will be held.

Henry Haggerty, a laborer 43 years of age, died while on a scow in the Oakland estuary last evening. The body was found and transferred to the local morgue, where an inquest will be held. Natural causes, and over indulgence in alcoholics are believed to have been the cause of death. Haggerty was single.

ALOHA PARLOR TO GIVE ANNUAL BALL FRIDAY

Aloha Parlor, No. 196, Native Daughters of the Golden West, will give its annual ball, Friday evening, in Pacific building, Sixteenth and Jefferson streets, where the members of that fraternity will act as hosts of the evening. The Native Sons will join the Native Daughters in the dance. It will be one of the largest affairs of the season. The arrangements are being completed by a committee composed of Mrs. Elsie Nunes, chairman, Miss Virginia Wilson, Miss Lottie Leopold, Mrs. T. Allen Miss May Utery and Mrs. Eleanor Crambs.

There will be another car given away at Idora Park, July 12. The new car is now on display in front of the theater building at Idora.

Miss Marie Dingwall, the dancing, demure soubrette of the new Idora Park musical comedy company, won her way to the hearts of half a dozen audiences this week with her rendition of the little convent girl, Yvonne, in "Madame Sherry," which is now being given at Idora.

"Madame Sherry," the best musical comedy ever produced at Idora, will continue at the park as the attraction for the present week. The bill for next week will be "Jumping Jupiter," a Richard "Carle" show.

COLUMBIA

Mike and Ike are revelling in pure, undiluted farce this week. The purveyors of good cheer are making merry in a clever bit of stagecraft entitled "In Wrong." The cozy Columbia has housed many entertaining farce-comedies, but none more livelier or satisfying than the current attraction.

The principals and the clever De Luxe Trio have plenty of opportunities. Dillon and King carry off the stellar honors with laughable characterizations. George Spaulding, Vilma Stech James, Dillon, Ruby Lang and Jack Wise also give noteworthy performances.

But on a Wednesday night, a play, "The Liquor Question," will resolve its premier production at the Columbia next Sunday.

DUKE PAYS RENTAL OF \$20 FLAG TO MONARCH

LONDON, June 18.—Today being the anniversary of the battle of Waterloo, it was rent day for the Duke of Wellington, but his grace did not have to dive into his pockets very deeply, and it was with an air of unconcern that he drove to Windsor, Castle to present King George with the little silken flag on a silver staff which covers the rent of his big Stratfield Saye estate for the ensuing year. The estate was presented by the nation to the victor of Waterloo and cost originally \$1,315,000, and under the act of Parliament every Duke of Wellington is required to present a replica of one of the French standards captured by the famous ancestor on the anniversary of the battle. Failing the payment of this "possession rent" the estate reverts to the crown, but as the flag costs only about \$20 there is no record of any holder of the title losing sleep over his liability or being late in payment.

INDEPENDENT OIL MEN DIVIDE SURPLUS FUNDS

BAKERSFIELD, June 18.—The expected break in the ranks of the members of the Independent Producers Oil Agency, in annual session here yesterday afternoon, failed to materialize, although the main topic of discussion was for the organization of the concern. The distribution of \$225,000 in surplus funds collected throughout the year was announced. The following officers were elected: E. P. St. Clair, Bakersfield, president; W. B. Robb, Los Angeles, secretary; S. W. Morrehead, San Francisco, vice-president; M. B. McQuigg, Los Angeles, treasurer. The report showed receipts from the sale of oil of \$4,551,161, and distribution to members of \$1,326,000.

THE OWL'S 22nd Anniversary Sale

FRIDAY SPECIAL DAY

There being but two days more of our Twenty-second Anniversary Week in which to celebrate, we intend to wind things up in whirlwind style.
As our Friday Special Sales have so long been a regular weekly feature of our business, we have decided to call tomorrow "Friday Special Day."
We have made an especial effort to arrange a list of Friday Specials for this sale that not only includes a larger number of items than is usually advertised, but of such an attractive nature that the inducements offered will be almost irresistible.
A glance over this list will convince you that it will be worth your while to visit The Owl on Friday:

KEEP COIN HOME, IS DANIELS' PLAN

New Park Chief Will Try to Draw Tourists to Playgrounds.

SAN FRANCISCO, June 18. — To induce Americans to spend in the national parks the millions they take abroad annually to leave among the scenery of Europe, is the task set before Mark R. Daniels, just appointed by President Wilson to be landscape engineer and general superintendent of the national parks. Daniels returned from Washington Tuesday night.

"Within the next two or three years," said Daniels yesterday, "the Department of the Interior hopes to popularize the parks to an extent that will keep at home at least \$200,000,000 a year of the \$500,000,000 now being spent abroad. Obviously that will mean an enormous saving to the country."

According to Daniels, his appointment to the Bureau of National Parks has already assumed direction of the parks, and the plan which he is charged with carrying out includes the organization of a single administrative system for all the parks, the ultimate elimination of the Army from them and the substitution of a civil service. Daniels will be in charge of the planning of roads and trails and the designing of an appropriate type of architecture for all the buildings within park boundaries.

San Francisco gets the permanent headquarters of the park system, as Daniels insisted that the national parks be directed from a Western city. The system includes all the national monuments, which are administered by the Department of Agriculture.

Daniels plans to build up a permanent force of park police on the lines of the Canadian Northwest Mounted Police, and by opening the way to advancement, organize a park service to which men will be willing to devote themselves. For the present, he said, no changes in the park administrative force are in view.

Daniels leaves in a week for the Yosemite, and is to go from there to visit the Crater Lake, Rainier, Glacier and Yellowstone National parks.

Big Double Show At the Broadway

EVANGELINE HALL

This week the popular Broadway Theater will offer to its hundreds of patrons a big double show for the price of the regular bill. "The Battle in the Clouds," a sensational feature film in three parts and "The Conspiracy," a foreign drama in four reels, makes up the big bill with the comedy and taken by a laughable Keystone picture.

The play "The Battle in the Clouds" has aroused much discussion all over the country as it furnishes several thrilling moments during one of which a live horse and cowboy have been in the air at the end of a great dirigible balloon.

Miss Evangeline Hall is one of the stars in this week's Broadway show.

JUDGE HOLDS TRIAL IN DUMB MAN'S LANGUAGE

Justice of the Peace Quinn held a unique session of court yesterday afternoon when not a word was spoken during the proceedings.

Thomas Grady, a deaf mute, conducted his own defense in a suit brought by Dr. C. H. Becker to collect \$200 on bill. The case threatened to drag on indefinitely, as all the questions and answers had to be written out. When Edward Reed, clerk of the court, volunteered to act as interpreter.

Reed said that he had made a study of the sign language so he was sworn in to translate.

Grady told his case.

SUFFRAGE SCHOOL IS OPENED IN MADISON

MADISON, Wis., June 18.—The Wisconsin State Suffrage School, said to be the first of its kind opened here today with over 200 women from all parts of the State in attendance. The following subjects will be discussed during the seven-day session: "Legal and Economic Status of Women," "Wisconsin Laws Governing Women," "Public Speaking for Suffrage," "Organization for Suffrage," "Propaganda, Press Work and History of Suffrage."

CONFESSES THAT HE AND BROTHER ARE FORGERS

OKLAHOMA CITY, Okla., June 18. — Per Keeper, under arrest here on the charge of forgery, is alleged to have confessed that he and his brother, J. B. Keeper, committed forgeries at Muskogee and other Oklahoma towns and in other states.

MRS. WINN'S ADVICE TO WOMEN

Take Lydia E. Pinkham's Vegetable Compound and be Restored to Health.

Kansas City, Mo. — "The doctors told me I would never be a mother. Every month the pains were so bad that I could not bear my weight on one foot. I began taking Lydia E. Pinkham's Vegetable Compound and had not finished the first bottle when I felt greatly relieved and took it until it made me sound and well, and I now have two fine baby girls. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for what it has done for me. I always speak a word in favor of your medicine to other women who suffer when I have an opportunity." — Mrs. H. T. Winn, 1225 Fremont Ave., Kansas City, Mo.

Read What Another Woman says: Cumming, Ga. — "I tell some suffering woman every day of Lydia E. Pinkham's Vegetable Compound and what it has done for me. I could not eat or sleep, had a bad stomach and was in misery all the time. I could not do my housework or walk any distance without suffering great pain. I tried doctors' medicines but failed to get relief. My husband brought home your Vegetable Compound and in two weeks I could eat anything, could sleep like a healthy baby, and walk a long distance without feeling tired. I can highly recommend your Vegetable Compound to women who suffer as I did, and you are at liberty to use this letter." — Mrs. CHARLIE BAGLEY, R. 3, Cumming, Ga.

TO ABOLISH JUTE MILL IN PRISON

Will Install Factories So That Prisoners May Learn Trades.

Sacramento, June 18. — The jute mills at San Quentin prison are to be abolished and factories installed as a substitute, according to an announcement made today by the State Board of Control, following a conference with Warden J. A. Johnson of the prison.

The success of the furniture factory and the probable establishment of other factories on the prison site led to the decision.

The abolishment, however, will take place gradually as other factories are established. The jute mills furnish convict work that is neither skilled nor teaches them a trade that will be useful outside the prison walls. It is the plan to inaugurate plants in which convicts can be trained in trades.

Napa, June 18. — While David Madison was driving in his buggy from Napa to his home Tuesday evening he was run down by a north-bound automobile which did not have its lights lit. Madison was thrown out, receiving severe bruises, and his buggy was wrecked. The party in the machine sped on without rendering any assistance to Madison.

South San Francisco, June 18. — An automobile in which City Engineer George H. Kneese and his brother, Marshall Henry Kneese, were riding, was involved in a collision with a car near the intersection of 11 Camino Real and Mission Street Tuesday night. A rear tire exploded while the car was coming at a moderate rate of speed caused the accident. Both men were injured. Their injuries were confined to minor cuts and bruises.

Sacramento, June 18. — Captain Benjamin H. H. Wheaton of the National Bureau of Education in Washington, called on Governor Johnson and Simon J. Loring, president of the State Immigration Commission, to discuss with them various features of the western labor and immigration conditions, and form the nucleus of a conference to be held in California to establish a uniform legislative program for Washington, Oregon and California on matters pertaining to the handling of the immigration, labor and education of the alien on the coast.

Fresno, June 18. — Paul Norton, passenger agent for the Union Pacific who was reported injured in an automobile accident at Chico Tuesday afternoon, turned up at the local offices yesterday morning. Norton said he learned that his friends had been searching the country roads looking for him under an overcast sky. Norton reached the Chico office Tuesday night and went directly to his home. Friends earlier in the evening had been to the house and not finding Norton there thought that the driver of the accident was correct. Norton blames a joker for the false report.

San Mateo, June 18. — That John Hansen and Edgar Bassett, who were killed Sunday night when a motorcar was driven into a ditch by a driver who was reported to be Robert Y. Hayne, were polo players and golf champions, went to their death comforted by the headlights of the car which was driven by a woman. The car was driven by a woman who was not identified.

San Mateo, June 18. — That John Hansen and Edgar Bassett, who were killed Sunday night when a motorcar was driven into a ditch by a driver who was reported to be Robert Y. Hayne, were polo players and golf champions, went to their death comforted by the headlights of the car which was driven by a woman. The car was driven by a woman who was not identified.

HE RENOUNCES RULER WHOSE NAME HE FORGOT

It took five hours for deputies in the office of the county clerk to learn who the ruler of Armenia is at the present time, when Yussuf Yergorah applied for naturalization papers yesterday. A list of rulers of the world, kept for reference, had been accidentally mislaid and it was necessary to telephone to the government offices in San Francisco to learn the Armenian ruler's name, which proved to be Ahmed Reshat.

Yergorah promptly disavowed his allegiance to him and some day maybe will become an American citizen.

Get Rid of the Torment of Rheumatism. Remember how spry and active you were before you had rheumatism, backache, swollen, aching joints and stiff, painful muscles? Want to feel that way again? You can—just take Foley Kidney Pills. They get right at the cause of your pain and misery and remove them active and strong. Do it quickly too—for Foley Kidney Pills work quick. Start today and you will be active and free from pain. See your druggist.

THE LACE HOUSE

"THIS IS THE LIFE," IS CHEERFUL LIGHTER'S LAY

SAN FRANCISCO, June 18.—Living a solitary existence on a barren island, far removed from all the pleasures and gayeties of this great throbbing city does not keep one George W. Graves from whistling merrily. "This is the Life."

Graves, who is the chief lighthouse keeper at the Farallones, was made a member of the Alimony Club by Judge Mogan in December, 1913. In granting an interlocutory decree of divorce to Mrs. Isabel Graves, the court at that time ordered Graves to pay his wife \$30 a month.

Severing his medicine smilingly Graves repaired to his lonely station where, according to Mrs. Graves, he forgot all about alimony.

Last January Judge Mogan issued an order citing Graves to appear and show cause why he had not obeyed the mandate of the court. The order could not be served, however, for the reason that the federal government will not permit anybody to land on the islands unless on government business. On the other hand, Graves, when he did visit the main land, failed to mention his trips in advance notices.

When Mrs. Graves called on Judge Mogan yesterday, the judge had to admit that he was powerless in the circumstances. The woman declared that she would appeal to President Wilson.

Meanwhile, Graves, in the security of his island stronghold, is politely telling the superior court of California to worry.

CAPTAIN GRIFFITHS' FATE IS NOW DECIDED

SAN FRANCISCO, June 18.—The court-martial in the case of Captain Joseph H. Griffiths, accused of embezzlement, desertion and conduct unbecoming an officer, ended at the Presidio yesterday. Griffiths fled from a Seattle army post while under arrest.

An hour and a half after the prosecution had ended its charge, the court-martial made its findings. They were sent to Washington, where they will be reviewed and the findings made public.

Captain Griffiths' defense has been in the hands of Attorney George E. Price, who has been attempting to show that Griffiths was suffering from mental disability.

Price yesterday told the court that Griffiths had been the dupe of swindlers. The absurdity of Griffiths' attempting to finance a \$600,000 proposition was emphasized. That Griffiths had no intent of defrauding the government was the main point of Price's plea for leniency.

Captain Denis P. Quinn, acting judge advocate, in presenting the final argument for the prosecution, portrayed Griffiths as an officer without honor, who lied to his friends, presumed upon the honesty of subordinates and had willfully taken funds from the government treasury.

Basement Column

The following items will be on sale in our spacious well lighted, well ventilated basement tomorrow. They are well worth coming after because of their dependable quality and extremely low price. Note each one of them carefully.

Boys' Summer Weight Union Suits 25c

Pure bleached cotton made with athletic necks, short sleeves, and in knee lengths. Ages 6 to 16.

Boys' Black Stockings 15c

Medium or heavy weight, extra quality, extra good value. Fast colors. Sizes 6 to 9 1/2.

Boys' Open-Mesh Union Suits 43c

White cotton union suits in fine open mesh pattern. Knee length.

Scrim Curtains 89c

White and ecru. Some plain hemstitched, others with lace insertion. Made on coarse quality of scrim.

Couch Covers 79c

Roman stripe covers, excellent quality, good patterns. 50 inches wide. Finished ends. Can be used also as a door curtain.

\$1.50 and \$2.00 Corsets \$1.15

Regular numbers in a full range of sizes in Royal Worcester, Kabo and W. B. Corsets.

Good models made from heavy cotton, lace and embroidery, trimmed, in medium and long length styles, with medium and extremely low busts. \$1.50 and \$2.00 qualities on sale at \$1.15.

Untrimmed Shapes on Sale Friday at 48c

85c to \$1.95 untrimmed shapes in a lot of beautiful styles: turbans, bonnets, bandanas and mushroom shapes fashioned of hemp, chilo, milan and china straw will be on sale at 48c. Original values 55c to \$1.95.

Many special items have been featured in our basement millinery store, none of them more interesting than this one.

19c to 39c Flowers 10c

Re-priced at . . . 10c

A beautiful lot of dainty bouquets, wreaths, bunches of flowers, in all sorts of styles and colors, are priced for tomorrow at 10c. These used on one of the shapes advertised herewith will make a trimmed hat of attractive style for very little money.

Remnant Day Tomorrow in the Basement

Big showing of remnants of yard goods of all kinds in the basement tomorrow. Silks, dress goods, wash goods, towels, napkins, table damask, drapery materials, upholstery goods, curtain fabrics, of all kinds in good wearable lengths will be on sale at prices which are one-half, one-third and one-quarter less than the original yardage price. Lots of desirable lengths to be picked up. Tables arranged for a quick and easy choosing tomorrow.

EAST BOUND Passengers for EAST OAKLAND take 22nd St. cars at Pier.

NO CHANGE in Service to and from 12th and Broadway.

SAN FRANCISCO-OAKLAND TERMINAL RY.
A. W. McLimont, General Manager.

Voters' Busy Day Approaching.

From the office of the Secretary of State comes a pamphlet prepared by U. S. Webb, California's Attorney-General, containing the ballot titles for constitutional amendments, concurrent resolution, bond acts and referendum and initiative measures to be decided at the general election, November 3, 1914. After glancing over these titles it is apparent that the voter's time will be fully occupied at this election, for in addition to deciding for and against each, or ignoring them, the elector will have a list of state and county officers to select, a candidate for Congress and various township officials.

The propositions alluded to are those filed up to June 8, 1914, and that there will be more is manifest from the activity displayed by circulators of petitions for other measures which may be filed up to and including August 4. The list thus far completed is as follows:

Constitutional amendment providing authority for governor to call extra sessions of district courts of appeal when requested by

law relating to setting aside of judgments or providing for new trials; amendment permitting counties, municipalities or irrigation districts issuing bonds to make payments within or outside of United States; amendment exempting educational institutions from taxation; amendment exempting vessels from taxation; amendment authorizing counties or municipalities to condemn property; amendment authorizing Alameda County to incur bonded debts of \$1,000,000 for Panama-Pacific Exposition, amendment authorizing municipal corporations to acquire and operate public utilities; amendment relating to taxation of public property; amendment permitting county or municipality to exempt certain classes of property from taxation; amendment providing for elections by plurality, preferential vote and primary; amendment increasing amount allowed for expenses of state legislative assembly; amendment authorizing adoption and amendment of municipal charters; amendment providing for supervision of reclamation, irrigation and drainage districts; amendment amending law governing county charters; amendment adding to powers of railroad commission; amendment relating to incorporation of municipalities; amendment relating to control of international water systems; amendment providing state railroad commission to fix compensation for property of public utility condemned by state; amendment providing for manner of election of delegates to constitutional convention; minimum wage amendment for women and minors; amendment to law governing election of United States Senators, allowing governor to become a candidate; resolution calling for revision of state constitution; referendum on investment companies act; referendum on water commission act; referendum on red light abatement law; amendment to penal code section of game law, initiative amendment declaring poll tax invalid; initiative amendment providing qualification of voters at bond elections; amendment for state wide prohibition; initiative act for eight hour law; initiative act for land title law; initiative act for sale of state bonds for public buildings; against said act; for San Francisco state building act; against said act; act for sale of bonds for state fair at Sacramento; against said act; for San Francisco harbor improvement act; against said act.

The order of arrangement on the ballot has been decided upon by the Secretary of State in so far as the following are concerned:

The calling of a convention for a revision of the constitution will be first, the prohibition amendment second, the eight hour law third, the red light abatement fourth, the investment companies' act fifth and the water commission act sixth. The others will be arranged later.

When all have been completed the Secretary will send out a book of approximately 100 pages to each voter containing a digest of these several propositions, together with the arguments for and against for general enlightenment. In order to vote intelligently, it will be necessary for the voters to read these arguments and arrive at some conclusion previous to election day.

Hence it will be noted that following the issuance of these condensed essays on the merits of each subject submitted, the electors will have plenty of material for study.

Gold Shipments Not Disastrous.

Some journals are inclined to view with a degree of agitation shipments of gold by New York and other Eastern financial centers of gold to Europe. Announcement is made that for the six months ending June 30, \$52,200,000 has been sent out of the country. This condition has been regarded as surprising in view of the need of gold with which to readjust finances to the new banking and currency bill, soon to become effective. However, in the light of the gold in circulation, which at the close of 1913 was \$608,979,598, not to mention more than a billion in gold certificates, we cannot see any particular amount of danger ahead.

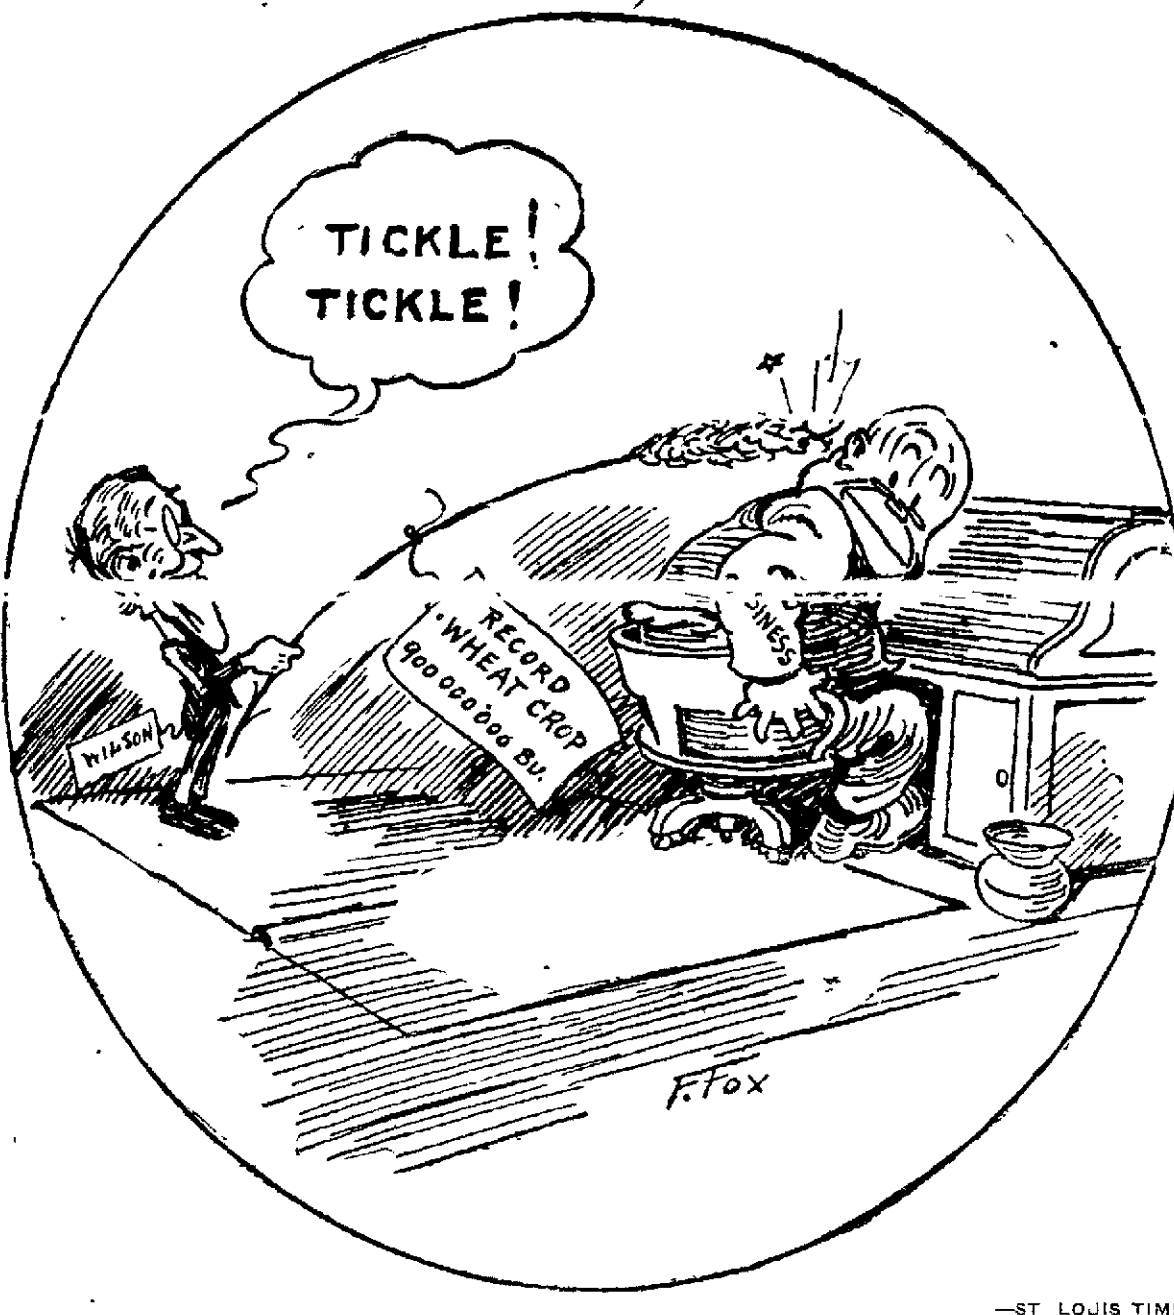

Especially when it is stated that a part of this exportation represents European selling of American stocks and the other lendings to European banks. It matters little which is the greatest cause, for on the one hand we are cutting off an interest drain by purchasing our own securities, while on the other hand we are storing up credit and as a result increasing borrowing power if needed. Then, too, we shall soon be exporting our immense crops of all sorts and with a great movement of that kind this money we are now sending away will return again.

There seems to be no need of becoming pessimistic. The fifty millions sent away is only the hole in the cruller; we still have the doughnut itself.

On the editorial page of THE TRIBUNE yesterday appeared an excerpt from the Evening Wisconsin of Milwaukee concerning the origin of the term "Gringo," as applied by Mexicans to citizens of the United States and other countries. It is related that during the Mexican war the soldiers of Scott's and Taylor's armies were in the habit of singing Burns' poem, "Green Grow the Rushes, O," and that the term "Gringo" was derived from the combination of the words "green grow." Aside from the fact that the term "gringo" was derived from a Castilian expression meaning "do not understand," this theory has little basis, as will be noted from the fact that long ere Taylor and Scott invaded Mexico the term "gringo" was in common use.

Some depression is "psychological" in its dips, apurs and angles, but all the same there is some other cause behind the price of

THE GOVERNMENT CROP REPORT

Preparing for Panama Canal Trade.

THE TRIBUNE holds no brief for Galveston, Texas, which is a city enterprising enough to care for itself, as has been amply demonstrated since the disaster of many years ago. Hence the announcement that Galveston has just succeeded in financing a \$20,000,000 steel plant to be located at Texas City, just across the bay, need not be looked upon as an advertisement. Money for this gigantic enterprise, which will be an active competitor of the United States Steel Corporation, was obtained in Belgium, and included among its backers are practically all the large business men in the state.

Plans for the plant, which will employ 7000 men, have been perfected and work will start at an early date. Iron ores and limestone will be furnished by Texas, while virgin coal fields of Alabama will supply the fuel. The corporation will manufacture steel rails and other products which are made by the United States Steel Company.

Promoters of this gigantic enterprise are anticipating great returns as a result of the opening of the canal. They plan to extend their trade from Alaska on the north to Chile on the south, and to invade the Orient. Expressions indulged in by gentlemen active in the formation of this corporation are optimistic in the extreme, and yet when all are analyzed, it will be found that the canal is the main impulse for this activity, and that without this new highway for commerce this mighty enterprise would have been an impossibility.

Meanwhile activities are manifest in other lines. Especially in shipping circles. Two or three independent concerns are preparing to put on regular service between gulf ports and this coast. It is not at all unlikely that this steel company will carry its products in its own ships. But outside this, the gulf states are making ready for an era of prosperity through the discovery of new markets which will be made as a result of the completion of the isthmian waterway.

All this should be an incentive for action on the part of the states on the Pacific coast. As this paper has related, the coast section must prepare to exchange cargo for cargo. While the mighty crops of California, Washington and Oregon will require scores of the largest freighters all of the time, or nearly so, crops alone will not provide the three subdivisions with the balance of trade which is desired. These commonwealths, so full of promise, must prepare to enter into the manufacturing field in such lines as they are adapted to and to trade shipload for shipload with every state of our own nation as well as foreign countries. To this end a mild suggestion that perhaps a little less politics and a greater effort for material prosperity will not be amiss; that the energy expended in effort for factional success is of such volume that a portion can well be spared for commercial uplift.

Italy Confiscates Valuable Painting.

During the lifetime of the late Hamilton Fish of New York he purchased in Rome a painting by Moretto de Brescia, for \$4000, the masterpiece known as "The Blackamoor." Two years ago Mrs. Fish prepared to bring the treasure to the United States and prior to sailing declared its value to the port officials as nominal, fixing its price at \$100. Immediately the officials paid the price fixed and took the picture from her, Italian law providing for this action where owners do not state the full value.

She appealed to her home government and pleaded that she was instructed by the clerk who aided her in making her export declaration that the act was purely formal, and that in addition she did not know the real value of the work but her appeal has been rejected and the Italian government retains the painting.

This rule may seem harsh, but inasmuch as the law of Italy appears to be fixed in this particular, Americans purchasing rare objects in that country will do well to thoroughly inform themselves before attempting to ship them to this country, else they may lose, as in the case of Mrs. Fish, who, through no apparent fault of her own, is deprived, not only of a valuable painting, but a memento of her late husband.

Late reports from Washington relate that Secretary Bryan "has hopes" that the peace plans for Mexico will yet be worked out. What an optimist Mr. Bryan is.

Twenty Years Ago Today

One of the finest outing parties of the year has just left for a camping season on the Sacramento river, and will be a most enjoyable one. It comprises well known and congenial spirits among them being Rev. Dr. J. K. McLean, President Kellogg of the University of California, and the G. I. Men's Club, and among and family Professor Foster the Misses Herrick, and Mrs. Roland W. Snow, Miss Olney and E. D. Page. The party is well supplied with everything necessary to make their excursion in the open air delightful.

Following is the list of this year's graduates of the Harvard High School: Blanche M. Bridge, Jennie J. Welt, Anna Garcia, Ella T. Garretson, Flora K. Hatch, Alberta H. Loveland, Arthie A. Alexander, Clarence McDowell, Theresa M. Sullivan, Christina K. Haas, Ethel McKeever, Agnes Ramsey, Tom. Tessen, N. E. Nicholas, Louis H. Fumeral, Joseph Foggers, Andrea Forsman.

Under Sheriff Harlow is getting out a new edition of his work, which was originally issued some years ago entitled "Sheriffs and Constables."

A special little party, consisting of Mrs. Remi Chabot with Miss Chabot, Mr. and Mrs. Martin and Mrs. Pedar Smith, have gone to the Yosemite.

There was a ladies' chirp at the Athenian Club which afforded an evening to those in attendance Edson F. Adams was the floor manager and his assistants were A. S. McDonald and P. H. Remillard.

The reception committee consisted of E. M. Roberts Jr., A. L. Stone, George S. Wheaton, A. P. Bravton Jr., R. M. Fitzgerald, Harry Knowles, R. W. Miller, F. G. Dunn and C. D. Kennedy.

The marriage of Louis Desimone to Miss Beatrice McIntosh of this city was performed by Rev. Father Lench.

Officers of the Mayflower Social Club of Berkeley were elected as follows: President, Mrs. C. Mellink, vice president, Mrs. King, secretary, J. W. Turner, treasurer, Mrs. M. J. Silvershield.

The engagement reception of Hugo Abrahamson and Miss Bertha Jacoby will take place at the residence of Mr. J. Abrahamson on Filbert street.

The wedding of William W. Dawson and Miss Maude Merick, daughter of Mr. and Mrs. J. D. Merick, took place in Montana Hall. Among those present were members of the many various lodges of which both the groom and the bride are members.

Schools and Colleges

MANZANITA HALL, FAIR OAK, CALIFORNIA. An excellent school, situated in a beautiful setting, offering a complete course in education. For catalogue and specific information, apply to W. A. HENRI, Agent, Manzanita, Cal.

THE ANGLEWORM'S HOPE

It has been said that fishermen as a class have two salient characteristics—unlimited patience and boundless division of opinion regarding the choice of bait. Nearly every form of bait has warm supporters. Earthworms, minnows of various kinds, grasshoppers, frogs, crabs, have all been used with success to lure greedy fish. And those who are not satisfied with one kind of bait, but who are in division for there are artificial flies of multitudinous forms and colors.

Among the many things that science has done recently is to discover a new kind of bait, and it is believed that the newcomer will precipitate violent discussions among those who profess to be experts in angling for same fish. At a dinner given by the American Fish and Game Society of Zoologists the important announcement was made that many fish can smell bait much faster than they can see it. Those responsible for the novel theory proved their claims on this spot. They put a fish into a tank of water where food which it liked was

present, and by ingeniously plunging and unplugging its nostrils it was shown, to the satisfaction of all present, that the fish's sense of smell guided it unerringly to the food.

As a result of this notable demonstration a new bait called "smelling bait" has been made. This bait is made of soft rubber and it closely imitates a fish's sense of smell. The rubber bait is a small, soft, white, cylindrical object, about the size of a pencil eraser, and it is allowed to sink slowly in the water.

The elusive inhabitants of the deep scent from afar the odor of the oil and come unsuspectingly to their destruction. Perhaps "smelling bait" is all that it is claimed to be. It is possible that appealing to the wily game fish through his sense of smell instead of showing morsels will turn upside down the methods of angling that were so carefully and verberately explained by the Walton. But to the attentive fishermen who does not pretend to be a scientist, these new rubber fish look decidedly like a fish.

PERSONS AND THINGS

Consul Jay White of Naples reports the sale of 50,000 to 60,000 American (34 to the Italian railways for delivery during April and May at the ports of Leghorn, Naples, Brindisi and Messina.

Of the 1100 cases of removal from CO. 1713 to city investigated by the Kentucky, more than 1000 were caused by a desire for better homes and good social advantages.

In Winsted, Conn. they have trees found nowhere else according to a zealous correspondent. One was recently cut which contained three different kinds

of wood. The butt of the tree was oak, the middle chestnut and the top hemlock.

At official banquets in Gwalior, India, an ingenious American electrical device of silver is used for passing around the after-dinner coffee, cordials and cigars. This is in the form of a miniature locomotive and train of cars, which operate from an electric battery and running table as so constructed that it automatically runs around the banquet table.

If a man isn't appreciated by his wife's relations it makes him feel almost as bad as if he does when he finds a dollar bill on the sidewalk.

BERKELEY AND ALAMEDA Gossip of Students and Residents in University Town and Happenings of Day in the Island City

GREGG TO PLAN THE CIVIC CENTER

A Committee of One Hundred Citizens to Boost Berkeley Bond Issue.

BERKELEY, June 18.—Tentative plans for the civic center, which will be secured and laid out between Allston way and Center street and Grove and Mitia streets by the bond issue for \$150,000, will be held on August 15 to the people, are to be drawn by Professor J. W. Gregg, head of the landscape architecture department of the University of California.

There is a further showing of a possible arrangement of the plot, but Gregg will submit plans which the council hopes will win popular support for the bond issue.

A committee of 100 citizens as a central organization to boost for the bond issue has been organized. The committee will be organized by the council and Mayor Hierwood, and it is expected that a committee will be selected and asked to serve as soon as the first call for the bond issue is issued.

Membership in the committee will be open generally to all who are interested in the city.

Offers of assistance are already in the Mayor's possession.

The bond issue which has been developed in the proposed issue because of the improvement of the waterfront, which that section of the city has been favored for months past. It is proposed to expend half a million in harbor development in accordance with plans to be drawn and adopted by the council.

The third item in the bonds will include the improvement of the school plant, a former bond issue for which purpose the city has been authorized to issue bonds.

That the frame type building will be erected in such improvement is predicted, this form being favored by many as more elastic and permitting with the available money the erection of a large number of buildings.

Officers are to be selected by tourists.

BERKELEY, June 18.—The annual meeting of the Tourist Association of the San Francisco Bay and River Counties will be held at the Hotel St. Francis on Saturday evening.

Officers for the ensuing term will be chosen. The association has been organized for the purpose of promoting the interests of the city and the bay.

SHOWER BELATED GIFTS KEPT WEDDING A SECRET

Mrs. J. D. Thomas Center of Many Deferred Attentions

ALAMEDA, June 18.—Having surprised her friends by secretly marrying, Mrs. J. D. Thomas, who was Miss Elsie Hamilton, has been the subject of much speculation.

Now that she has returned from her honeymoon, however, several functions have been planned and among them was that given by Fair Oaks Rebecca Lodge, following a program, Mrs. Thomas was showered with attentions.

She had been married about a month ago and her wedding was the cause of great surprise. They went to the Garden City without announcing their plans to anyone and it was two weeks before the secret was told.

INSURGENTS LOSE IN WOODMEN LODGE

The Vote in Seating Delegates Debates Them From Big Convention.

TOLEDO, June 18.—Administration forces won in the national convention of the Modern Woodmen of America when a vote was taken today in a stormy session.

Wrangle on the adoption of the report of the committee on credentials ended in a vote of acceptance, 233 to 125.

The report of the credentials committee bars from the convention the contesting insurgent delegations.

After the adoption of the report adjournment was taken until this evening when a night session will be held.

The session this morning began under auspices similar to those of Wednesday's stormy meeting. Extra police were stationed at the doors and no one but delegates bearing credentials was admitted.

Plans of the insurgent leaders to introduce a resolution demanding an inquiry into the financial management of the order was frustrated by the defeat of their side in the vote on the committee report.

SQUIRREL CONVEYS BUBONIC PLAGUE

SACRAMENTO, June 18.—War has been declared by the State Board of Health, acting in conjunction with the Federal health authorities, against the ground squirrel of the Walnut Creek region in Contra Costa county.

The rodents have been found recently to be infected with bubonic plague and a general slaughter is promised.

A San Francisco newspaper man nearly gave his life while making the discovery. On May 17 the Walnut Creek resident, a commuter between that point and San Francisco, was cutting hay in a field near the home.

He was president of the West Coast Kalamazoo company which has its factory in West Berkeley. Formerly he was a director of the First National bank of this city.

Pennington was born in 1853 in Columbia, Ohio, and had just passed his 61st birthday. The early years of his life were spent in various occupations and he resided in Berkeley for ten years.

PLAN NAMING OF SOCIAL WORKER PRESIDENT NOT ON COMMITTEES

Berkeley School Board Plan Is Approved by Charteries Society.

BERKELEY, June 18.—The board of education has under consideration the appointment of a social worker for laborers in various parts of the city where there is expected to be a large influx of people.

The board received at its meeting last evening a communication from the Berkeley School Board plan is approved by the Charteries Society.

The meeting of the board was characterized by no discussion of the board issue, which had been expected to take place. Three members of the board have aligned themselves against the election of school boards proposed by the council.

Bids were received for the completion of the unfinished rooms at the Hawthorne school district in the Lincoln school building.

Albany Plans Salt Water System for Sprinkling and Fire

ALBANY, June 18.—Plans for a salt water system for fire protection in this city and for sprinkling of streets have been proposed to the town trustees by Charles L. Higgins, town engineer.

The erection of two tanks with pumping connections from the bay is the first step planned to be taken. The filling of the second tank by gravity from the first is believed possible.

McClure's bill, which will be introduced in the legislature, will be considered by the trustees as soon as definite specifications are submitted by Higgins.

MISSING YOUTHS BOOB UP SERENELY

Given Up as Dead, Young Restless and Schroeder Return to Homes.

ALAMEDA, June 18.—After the shores and marshes around San Leandro had been searched all night by large parties of volunteers, endeavoring to find Ben Restuch and Fred Schroeder, 12-year-old boys who had been missing since Monday, they were returned to their homes this morning.

They had spent the night in the marshes after their cars had been left abandoned in the brush.

They had been given up as dead this morning when they returned. Restuch lives at 1221 Collier avenue and Schroeder at San Jose and Collier avenue. They are pupils of the Lincoln grammar school.

EGYPTOLOGIST IS OFF FOR REUNION

Colonel Raum Leaves for Alma Mater's Celebration of Anniversary.

BERKELEY, June 18.—Back to a circle of friends with many of whom he has not met for a third of a century has gone Colonel George E. Raum of this city, former soldier of the United States government and one of the world's most famous Egyptologists.

Raum left yesterday on the Overland to attend a reunion of the Virginia Military Institute's alumni at Lexington, where he was a cadet in his youth.

The institute celebrated last year its 75th anniversary. This summer it is observing the anniversary of the battle of Newmarket, former students are gathering for the celebration from all parts of the country, several other men from this coast also attending.

Colonel Raum, who has been making his home in this city at Clifton Court for the past six years. The Colonel was retired from the United States army several years ago.

He has established a wide reputation for himself in the study of Egyptian lore. Several years ago he had provided a budget for the two most important works in this field.

Miss Mary P. MacDermott, instructor in music in the department, gave first-year instruction in the High school.

CHANGES IN FACULTY. The resignation of Miss Bertha Vollmar, instructor at the High school, was received and accepted with regret.

Miss Anna Vollmar was appointed to the vacant position.

Miss Anna Vollmar was appointed to the vacant position.

Miss Anna Vollmar was appointed to the vacant position.

BERKELEY PERSONALS

BERKELEY, June 18.—Miss Maybel H. Coombs became the bride last evening of Marion S. Barnes, a graduate of the University of California.

The wedding was performed at the home of her parents, Mr. and Mrs. A. G. Coombs of 2512 Dana street, by Rev. C. Sinclair Barnes, brother of Mrs. H. S. Barnes of 2218 Elmwood street and with his bride will reside in this city.

This evening Miss Evelyn E. Slater, Tweedie at the home of the bride's parents, Mr. and Mrs. John H. Slater, of 2844 Forest avenue, Rev. L. A. McAffee officiating. A reception will follow. Tweedie and his bride will leave after a year for Chicago where he is engaged in missionary work.

Another wedding this evening will be that of Miss Leah H. Wilson, daughter of Mrs. Anna Wilson of 2001 Dana street, and Lester E. Barker, son of Mr. and Mrs. Marion Barker of 2210 Derby street. Rev. Spencer C. Barker will perform the ceremony at the bride's home. A year ago Barker's sister, Ethel, became the bride of Miss Wilson's brother, Leslie.

STEAMER IN PERIL. Steamer Hyndford, due here on June 21, is reported ashore in Albany wharf near the mouth of the San Francisco bay. The south and grave fears are expressed for her safety.

ALPHA-OMEGA MUSICIANS GIVE ENTERTAINMENT

The Alpha-Omega, a musical society, composed of the junior pupils of Miss Josephine Gil, rendered their last musical entertainment at the De Fremery clubrooms on Tuesday evening.

A delightful program, comprising piano solos, duets, vocal choruses and duets was rendered by the young people. Those who participated were:

Madeline Bertrand, Delfreda Cook, Grace Connelman, Wills Connelman, Edna Haggis, Dorothy Jackson, Kathryn Kent, Lillian Kent, Annie Lamprell, Martha Lundberg, Volberg Lundberg, Helen Liddie, Margaret McNally, Beatrice Mehan, Margaret Mehan, Kathleen Mehan, Genevieve Smith, Loraine Turner and Masters Marion Conklin and Melvin Sweeney.

LETTERS LEAD TO DIVORCE. SAN FRANCISCO, June 18.—Declaring that she found letters of seduction from Marie Hurley filed suit for divorce today against Edward J. Hurley, a real estate broker. She makes one of the allegations signed by "Florence" a part of her petition.

PEHARICH BEGINS NEW SUIT TO DIVORCE WIFE

SAN FRANCISCO, June 18.—Philip Peharich, the local mining investor, whose divorce decree was set aside by Superior Judge Griffiths after his wife Agnes had established the fact that she had been living with him following his being granted a legal separation.

Mrs. Peharich set up the claim that she knew nothing of the first divorce decree and that she had been deceived and that she had had no opportunity to make a fight for alimony or community property. She charged that her attorney had entered a default in her behalf without her knowledge. Today Peharich, in his new suit, accuses his wife of having an affair with the person of C. A. Jackson.

ENJOY OUTING. Many Oaklanders are enjoying the first of the season in the Albany wharf near the mouth of the San Francisco bay. The south and grave fears are expressed for her safety.

THERE ARE THREE KINDS OF MEN

Money is responsible for a whole lot in this world now-a-days, and so Money divides men into three classes: Those who know enough to get their full Dollar's worth for every dollar spent—those who are willing to let their money help those who feel that extravagance of appearance helps their standing in the world—and those who don't care what they get for their money so long as there is always more in sight.

We Cater to the First-Class ONLY

If you don't want to see \$10.00 go to waste (or its equivalent in extravagant fixtures and business running-expenses) every time you buy a suit, it is about time you woke up and got the habit to

JAPANESE DANCES WILL BE PROGRAM

Proceeds of Entertainment to Aid M. E. Mission Church.

For the benefit of the Oakland Japanese Methodist Episcopal church, a concert and entertainment will be given in Hamilton auditorium, this evening.

Solos on Japanese instruments and the Genroku Hanami dance of the noble class of Japan will be among the numbers.

The Shamisen, Koto, shakuhachi and the Japanese harp will be heard. The opening address will be delivered by Rev. S. Yoshimura, who is one of the leading Japanese clergymen in California.

The children of the Sunday school of the Alameda Methodist Episcopal mission, South, will sing.

The greater part of the program will be given by Japanese men and women. The order of the selection will be as follows:

Opening address, Rev. S. Yoshimura; song with motion. Sunday school children of Alameda M. E. mission, South; violin duet, Kenji Ika, Yoshiko Koto; Japanese harp, Mrs. M. Suzuki; violin solo, H. Tanaka; vocal solo, Miss Hana Shimozumi; piano solo, N. Matsudaira; koto and shakuhachi duet, Mrs. S. Takashima, K. Suzuki; violin solo, Mrs. Wil-

PETROLEUM OUTPUT SHOWS A DECLINE

WASHINGTON, June 13.—Production of petroleum in the Appalachian oil field declined 1.72 per cent, or 452,876 barrels in 1912 compared with 1912.

PIONEERS RECALL HARDSHIPS.
 PORTLAND, Ore., June 13.—Reminiscences of the early days of hardships of the pioneers and the terrors of the Indian hostilities were told here today by members of the Oregon Pioneer Association at the opening of their two-day convention. Several hundred pioneers were in attendance. The association is composed of persons who came to the original territory of Oregon or were born here prior to 1850.

CITROLAX!
CITROLAX!

First—get the name down pat—then buy it of your druggist. Just the very best thing for constipation, sick headache, sour stomach, lazy liver, sluggish constipated bowels. The pleasantest, surest, nicest laxative you ever used. Tastes good—like lemonade. Acts promptly, without pain or nausea. Gives you the most satisfactory flushing you have ever had. Sold everywhere.

VALLEJO NEWS

TO FINISH ROAD IN NEAR FUTURE

Work to Be Rushed on Vallejo-Benicia Electric Line.

VALLEJO, June 13.—The early completion of the proposed new electric railroad between Vallejo and Benicia is now an assured fact as parties interested in the road visited this city yesterday and announced that affairs of the concern have now reached that stage where it is possible to commence construction work at an early date. The new road will enter this city near North Vallejo depot and will have its terminus at the Monticello Steamship Company's wharf.

While here yesterday the officials spent much time looking for a route that will keep the tracks off the paved streets of the city. The survey between Vallejo and Benicia has been completed and as the road is to run north from Benicia it is believed that it is part of some other system, possibly the Oakland, Antioch & Eastern Railroad which has been reported as intending to extend its system to Benicia and Vallejo.

The officials of the new road will return to Vallejo in a few days at which time it is expected that some definite information will be given out to the public concerning the plans of the company.

STEAMERS IN RACE AS SHIPS SPEED TEST

VALLEJO, June 13.—In a race with the steamers General Frisbie and Napa Valley yesterday morning the reconstructed steamer Schome proved herself to be one of the fastest vessels on the bay. No one but Chief Engineer Samuel Sutton of the Monticello Steamship Company was aware of the fact that there was to be a race and it was not until after the General Frisbie had left Maine street wharf on her 9:45 o'clock trip to San Francisco that the Schome started out. The Frisbie was about opposite the gas company's pier and well under way when the Schome backed out from her berth and gave the signal for a test of speed. Scores of people along the waterfront witnessed the two steamers as they sped down the bay. The Schome gradually catching up with the Frisbie and passing the latter as the two steamers rounded the magazine point.

MARE ISLAND NOTES

MARE ISLAND, June 13.—The Mare Island officials estimate the North-American channel deepener will complete the dredging operations in the vicinity of the quay wall before the war ship begins to return from Mexican waters.

Master Shipwright C. H. Stevens was placed in charge of the navy yard saw mill and joiner shop yesterday in conjunction with his other duties which include the supervision of the shipwright shop at Mare Island.

The gunboat Yorktown is on her way to Mare Island for her needed repairs.

The new scuttlery equipment arrived at the yard yesterday from Chicago. The equipment consists of batteries and will be installed at once.

The yard officers are still waiting for word from the cutter Neva. The fuel ship should arrive early next week at the yard.

As a result of an order from the Navy Department received at Mare Island yesterday the summer Saturday half-holiday is placed on July 6.

Commander M. G. Cook, U. S. N., officer

superintendent of the machinery department will take the navy yard bid for the hopper dredger San Pablo to San Francisco this morning.

Assistant Surgeon Henry McDonald, U. S. N., has been ordered detached from the receiving ship Intrepid and he will be assigned to the naval hospital.

The cantilever crane will be tested Saturday.

Commander Sweet, U. S. N., went to San Francisco yesterday to inspect the naval reserve armory.

Lieutenant E. L. Reichmuth, U. S. N., assistant to the inspection officer at the yard will leave today. He has been granted on month's leave of absence after which he will join the battleship Michigan on the east coast.

Lights No. 53 will arrive at the navy yard this afternoon.

The old six-inch battery which was recently removed from the cruiser St. Louis by the yard mechanics was shipped east yesterday to the Washington, D. C. gun factory.

MEMORIAL FOR ANDREW JACKSON IS PROJECTED

NASHVILLE, Tenn., June 13.—A national movement for the collection of a fund to erect a memorial in Nashville in honor of Andrew Jackson, was launched last night at a banquet given by the executive committee of the Andrew Jackson Memorial Association.

Five thousand dollars was subscribed as a nucleus of a million and a half dollar fund. Work will start at once to place the project before the people of the United States.

OFFICER KILLED WHILE TESTING AEROPLANE

CHARTRES, France, June 13.—Major Julian Felix, commanding the aeroplane depot here, was killed yesterday while testing a new self-righting aeroplane. When at a height of sixty feet the machine turned suddenly and dropped to the ground.

The cause of the accident is a mystery, as the aeroplane was found to be in perfect order.

Thin Folks Who Would Be Fat

Increase in Weight Ten Pounds or More.

A Physician's Advice.

"To certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal amount of fat the nutritive processes must be actually supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal.

Sargol is a scientific combination of six of the best strength-giving fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich ripe nourishment for the tissues and blood and its rapid effect is remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by the Osgood Bros. drug stores and other good druggists everywhere and every package contains a guarantee of weight increase or money back.

marriage results in the treatment of nervous indigestion and general stomach disorders. It should not, owing to its remarkable flesh producing effect, be used by those who are not willing to increase their weight ten pounds or more.

HALF BILLION FOR FARM MORTGAGES

Comptroller Estimates Amount in Banks Available Under Federal Reserve Act.

WASHINGTON, June 13.—Comptroller of the Currency Williams estimates that about \$500,000,000 in national banks throughout the United States is available for farm mortgage loans under the provision of the federal reserve act making it possible for national banking associations to lend money on improved farm lands.

Scores of inquiries concerning this provision reach the treasury department daily and there does not seem to be a general understanding that the farm loan clause of the act is not now in force and makes it possible for national banks to make farm loans before the formal organization of the federal reserve board.

The estimate of Comptroller Williams is based on reports showing the capital stock and surplus of national banks to be \$1,777,000,000. Twenty-five per cent of this amount, \$444,250,000 is available for farm loans. Furthermore, the federal reserve act provides that national banks may grant farm loans up to 25-3 per cent of their time deposits. Banks with large deposits will be able to far exceed the sum they could lend on farms under the 25 per cent clause, and the estimate of Mr. Williams is believed to be conservative.

Farm loans under this act are not to be made for longer than five years and the amount of each loan is not to exceed 50 per cent of the actual value of the farm offered as security.

organization of the federal reserve board. The estimate of Comptroller Williams is based on reports showing the capital stock and surplus of national banks to be \$1,777,000,000. CABINET OFFICER RUNS AFOWL OF "SPEED COP"

HYATTSVILLE, Md., June 13.—Shortly after receiving the honorary degree of doctor of laws yesterday at the Maryland Agricultural College, Secretary of Labor William B. Wilson was charged with being a violator of motor vehicle laws when his automobile was stopped at Bladensburg for exceeding the speed limit. When the secretary established his identity he was permitted to proceed.

BRIDGE AND IRON WORKERS ELECT

New officers, trustees and delegates have been elected by the International Association of Bridge and Structural Iron Workers, Local Union No. 117, of this city. The new leaders of the union, installed at headquarters in Electrical Workers' Hall, 479 Twelfth street, for the coming year, as follows:

President, Thomas Horigan; vice-president, C. C. Norris; recording secretary, Tony Quintal; financial secretary, Paul Roemer; sergeant-at-arms, George Lockner; conductor, E. J. Burns; and trustees, W. T. S. Kirk, W. E. Whitman, Paul Otto, W. H. Elliott, and James R. Williams. Paul F. G. Reimer will be business agent. The delegates to the Building Trades Council are Tony Quintal, Paul Reimer and E. J. Glibbne. Quintal and C. C. Norris will serve as delegates to the District Council of Iron Workers.

WOMEN TAKING LARGE PART IN CAMPAIGN

Prominent Feminine Speakers
Add Interest to the
Canvass.

SAN FRANCISCO, June 18.—With the women of the state taking such an active part as they never have before, the coming campaign promises to be unique in the manner in which it is conducted.

Mrs. Joseph R. Knowland, who early entered the field in support of her husband for United States senator has been followed by Mrs. William C. Ralston who wants her husband to be the next Republican governor. Mrs. Ralston, too, is

ter of the late W. W. Grayson, one of the early mining magnates of California. Mrs. Clara Shortridge Foltz has taken the stump in behalf of her brother, Samuel Shortridge, who is a competitor with Congressman Knowland for senator.

Mrs. Helen K. Williams, editor of the "Woman's Citizen" is out for the Republican nomination for lieutenant-governor and Mrs. Edwin Van Winkle has charge of Francis J. Heney's campaign for senator.

Throughout the state women have already been appointed to minor offices and many are seeking them on one ticket or another.

Mrs. Joseph R. Knowland appeared before a gathering in Richmond the other evening and Republicans, Democrats and Progressives alike endorsed her husband for United States senator, calling upon the people of that city to "stand by the man who has always been and is now the friend of Richmond and her people."

SHINN CANDIDATE.
A. L. Shinn of Sacramento has formerly announced his candidacy for the Republican nomination for lieutenant-governor following conferences with party leaders in the different sections of the state. He promised an early and state-wide campaign. He said:

"It appears to me that the means adopted by the Progressives to control the organization of the Republican party is a breach of good faith and confidence. They were elected as Republicans and were given charge of the state government and of the Republican party and were trusted to the fullest extent."

"When they decided to form a new party they used the power given them to retain the legal organization of the Republican party, and still control that organization, thus preventing us from arriving through legal channels in reorganizing the party."

"It was such conduct as this that led us to overthrow the Southern Pacific machine, and we did not anticipate that we were to be thus treated by the leaders of a reform movement."

"I cannot conceive how any man can conscientiously hold on to the organization of one party while actively campaigning for another. Nor can I conceive how any Republican can condone such a course by voting for the candidates who follow that method. I believe the vast Republican registration is a protest against it and that the Republican party will sweep the state."

"I look upon much of the legislation of the two last sessions of the legislature as experimental and an attempt to revolutionize the form and character of the state government. In my opinion, it has gone so fast and so far that it has seriously affected the industrial life of the state. As is usual with all reactions, the pendulum has swung too far."

RAISTON'S CANDIDACY.
In many quarters the announced candidacy of William C. Ralston for the Republican nomination for Governor of California has been received with interest and approval. The following letter was received yesterday by Ralston from Charles M. Hadden, manager of the Taft campaign for the Republican presidential nomination in this state in 1912:

My Dear Mr. Ralston:
I acknowledge the receipt of your letter of June 7, and have no hesitation in saying where I stand in matters political, though my attitude in the Taft campaign of 1912 should not require any statement on my part.

I am, and always have been, a straight Republican, and have no liking for the various offshoots of the party.

I have always found you to be of the same mind, and recall with pleasure the loyal support you gave

TISDALE IS CANDIDATE WILL SEEK RE-ELECTION

DR. C. L. TISDALE, ALAMEDA COUNTY CORONER, WHO WILL BE CANDIDATE FOR RE-ELECTION.

Dr. Charles L. Tisdale, coroner of Alameda county, has announced his candidacy for re-election. Dr. Tisdale has served the people faithfully and is thoroughly familiar with all the duties of that important office. He is well known to all the citizens of the county and his administration of the coroner's office, he says, has given general satisfaction to all those who have come in contact with him.

Dr. Tisdale says: "I have been fair to all, and rich and poor alike have been treated with absolute justice. I have been uniformly courteous and considerate and the friends of the unfortunate who have met with sudden or violent death have at all times found me anxious to assist them in their trouble. Hundreds of crimes have been investigated by me, and always with a fair and impartial mind; in fact, I have conducted the coroner's office so that it attained a dis-

tinguish and importance as a part of the judicial system of the state that has brought forth much commendation from the leading attorneys of the county."

"Safety First" has been my motto, and in the furtherance of this principle many things have been done to decrease the number of accidents in the county. The railroads have been forced to install flagmen and gates at many of the most dangerous crossings, and the fact that last year the fatal accidents in the county were about one-half what they were during the first year of my incumbency speaks volumes for my watchfulness and zeal for the public welfare."

"The morgue under my management has been conducted with great care. The morbidly curious have been excluded, a woman assistant has been in attendance to care for all female cases, and justice and human sympathy have been the guiding principles of my office since I have filled the position."

me and to the cause during the year 1912.

Could anything else be expected of me now but that I should support you in the coming campaign?

I wish to assure you of my cordial and hearty support, and it will be a great pleasure to me if you are nominated and then elected in November, for I am convinced that the country needs a return to true Republican principles, and we should make a start here in California.

Trusting that you will find the time to come to this country, and assuring you that I will not lose an opportunity to say a good word for you, I remain, very sincerely yours,

(SIGNED) CHARLES MIFFLIN HAMMOND.

HENEY WON'T BE HERE.
Francis J. Heney has wired from Arizona that he will be unable to come to Oakland for the meeting he was to hold tomorrow night, so his managers have postponed the affair until June 26, when it will be held in the Hotel Oakland.

BANKER TO RUN.
VALLEJO, June 18.—Solano county may have a candidate on the Republican State ticket next November, as S. F. Ellison, a Vacaville banker, has announced that he will seek the nomination for State Treasurer on the Republican ticket. His candidacy is brought about through the fact that State Treasurer Roberts is to seek the nomination for lieutenant-governor on the Republican ticket.

PROHIBITION TICKET.
SACRAMENTO, June 18.—The Prohibition party will have a full State ticket in the field this fall. Statistician James C. Jordan in Secretary of State Jordan's office today received a full list of candidates for whom nomination petitions will be circulated. The list so far only includes members of the Legislature from Southern California districts: Frederick W. Wheeler, author of the State Wide Prohibition Constitutional Amendment, is Senator. The rest of the ticket is as follows: Clinton P. McKim, governor; Wallace M. Pence, lieutenant-governor; Gabriel A. Stickney, secretary of state; John Kendall, treasurer; Albert S. Spaulding, auditor; Horace A. Johnson, controller; James B. Blanchard, attorney general. While for the Congressional offices the following candidates will be backed by the Prohibition party: First district, Henry P. Stimp; second, William P. Passett; third, Edward F. Van Vleet; fourth, Frederick Head; fifth, J. C. Westendorp; sixth, H. O. Wolcott; seventh, James W. Rayburn; eighth, John M. Horton; ninth, Charles H. Randall; tenth, H. Clay Needham; eleventh, James S. Edwards.

PETITIONS FILED.
The first nomination petitions of candidates for State offices were filed yesterday with Secretary of State Jordan. The petitions were filed by the following: Justice Lucien Shaw and F. M. Angelotti of the State Supreme Court. The petitions came from Plumas county and because the persons who circulated the petitions made technical errors in the indexes on the petitions they will be rejected.

Justice Angelotti is a candidate for Chief Justice of the Supreme Court, and Justice Shaw is a candidate for re-election.

Anticipating a flood of petitions within a short time, Secretary Jordan yesterday issued a statement requesting candidates to file their petitions as soon as possible in order that both his office and the various County Clerks may have sufficient time to handle them within the 20 days allotted by the direct primary law.

WOMEN ORGANIZE.
LOS ANGELES, June 18.—More than 100 business women, department managers of big stores, secretaries, stenographers and saleswomen have organized a Republican Business Women's Club for the purpose of having the business woman of today represented in politics by women in touch with modern issues. The club immediately went on record for Captain John D. Fredericks for the Republican nomination for governor, and Mrs. Helen K. Williams for lieutenant-governor.

UNIVERSITY CASHIER IN SUPERIOR COURT.
Harry J. Wright, accused of embezzling University of California funds while he was cashier for the institution, will appear in the Superior Court on June 20 to make his plea. Wright was held to answer by the Berkeley police court.

WILSON ON ROLL OF LONGFELLOW SOCIETY.
Wilson accepted an invitation to become honorary president of the International Longfellow Society, an organization to preserve the birthplace of the poet at Portland, Me.

WOMAN 'SASSES' SON OF HUERTA

"Your Father Murdered Madero," American Says, on Leaving Capital.

VERA CRUZ, Mexico, June 18.—(AP)—Mary Reyes is back again under the American flag, after having given a certain Mexican named Huerta the assailing of his life. With her she brings four pretty daughters, about whom the young Huerta has been heard to speak with fondling like birds. But to go headlong into the story.

Mrs. Reyes went to Mexico 25 years ago and to the American widow of a Mexican, who was once wealthy. Her four daughters have delightful little faces, calculated to drive a white-suited young man mad. The white-suited etymology after the family fortunes waned, and in good American style, they jumped in after their father's death and made for themselves and their mother a home that was one of the brightest and most interesting in Mexico City.

When President Madero was assassinated Mrs. Reyes agreed with President Wilson that Huerta, the assassin, ought not to be recognized. It was an easy matter for President Wilson not to recognize Huerta, but for Mrs. Reyes it was an affair of great difficulty, owing to the fact that the Reyes and Huerta families were in the same social set in the city.

Mrs. Reyes began to speak her mind wherever she went. The Carranzistas, who were secretly in the city at the risk of their lives, sought her out and told her to be careful.

"AS I PLEASE."

"I'm going to talk and think as I please," she said.

The Carranzistas in the capital began to depend more and more on the American woman and her daughters for aid in accomplishing secrets in difficult tasks. For instance, it's Mrs. Reyes own secret how she did it, but it is known that 14 deputies who had been marked for death by Huerta were spirited away from her home at various times to safety.

And every time a deputy went to safety the wardrobe of one of the girls was minus a gown or a street dress. If you could just get the Reyes family to tell the details of some of these things you'd have a play or a book that would thrill the world. Maybe they'll tell sometime, they say—but the Carranzistas are in power yet.

The crisis for the Reyes family came on February 22, not because that is Washington's Birthday, but because it is the anniversary of the assassination of Francisco Madero, who was almost an idol with the Reyes girls and their mother. On that Sunday afternoon, Mrs. Reyes, taking her liberty and it might have been her life into her hands, went to the Plaza de Armas, where Madero lies buried and, carrying a great bouquet of roses she stalked her way through the lines of Mexican soldiers and rurales to the door of the Madero family tomb and placed the roses there.

Carmen, her daughter, who was standing beside her, suddenly felt the touch of a hand on her shoulder. The girl turned and found herself facing George Huerta, the son of Madero's assassin.

"What are you doing here?" he asked insolently.

He's a loafing young blood of the capital, and perhaps some of his father's rogues made him particularly overbearing in his demeanor.

"Are you a relative of the Madero's?" he continued. "What are you crying around here for?"

A sinister crowd of soldiers and secret service men surrounded Madero's grave. It would have taken a brave man to stand at that graveyard and speak his mind, and he would have probably paid for his words with his life.

"We are here to mourn for the good man your father murdered," she said.

SHE SAID MORE

The words came like so many shots, spoken right into the face of the assassin's soldiers heard by scores of bystanders who were so badly mourning, thrilling as it did every bystander until it hurt not to be able to breathe.

Reyes told George Huerta some other things, too, she told him that he was as bad a man as his drunken father. She prophesied; she said the day would come when his father would have seized the presidency by murder, would be an outcast. She said she hoped the day wasn't far away, either, and then she wound up by saying:

"What an attractive woman, who isn't afraid to talk, thinks about him!"

She and her daughter turned and stalked through the lines of soldiers and left the wondering and astonished son of

CHEMICALS START \$20,000 BLAZE

Spontaneous Combustion Damages California Picture Co. Plant.

SAN FRANCISCO, June 18.—Spontaneous combustion among chemicals stored in the rear of the San Francisco Plating Works, 1245-1251 Mission street, started a fire at 7 o'clock this morning which spread with great rapidity to adjoining buildings and was responsible for the turning in of three alarms. Before the blaze was extinguished damage estimated between \$15,000 and \$20,000 had been sustained.

The principal loss falls upon the California Picture Company, 1345 and 1347 Mission street which was completely destroyed, sustaining a loss of about \$10,000, including stock and the frame building itself. The concern is operated by

Michael Powers and James Wyman and is fully insured.

The San Francisco Plating Works was damaged to the amount of several thousand dollars and the roof of the Great Western Supply Company, 1341 and 1343 Mission street, was burned in several places. The flames shot skyward as soon as the wind had an opportunity of fanning the fire and the woodwork burned with great rapidity. When the first battalion chief arrived it was seen by him that the fire could not be controlled without the aid of two additional battalions. The flames were prevented, however, from spreading to several adjacent buildings and factories in the same block.

When the restaurant belonging to Geo. Num in Tenth street, near Franklin, was tumbled into an excavation being made for a new building at Tenth and Franklin streets several minutes ago, sustained damages to the extent of \$1200.25, according to his suit for recovery of the amount filed today in the superior court against J. M. Younger, T. M. Macrestritti and J. J. Small contractors.

RESTAURANT FELL INTO HOLE, CHINESE SUES

Progress-Prosperity Body to Hold Dinner

A "Vacation Eve" dinner will be enjoyed tomorrow night by the members of the Progress and Prosperity Committee of the Chamber of Commerce in the Blue Room of the Hotel Oakland at 6:30 o'clock. In honor of those who are to start soon on their annual recreation trips, the regular meeting of the committee will be turned into an occasion for feasting and fun. Business will not be overlooked entirely, but it will be relegated to the end of the dinner with the black coffee and the cigars. A special program of talks has been prepared

for the occasion.

The Carranzistas in the capital began to depend more and more on the American woman and her daughters for aid in accomplishing secrets in difficult tasks. For instance, it's Mrs. Reyes own secret how she did it, but it is known that 14 deputies who had been marked for death by Huerta were spirited away from her home at various times to safety.

And every time a deputy went to safety the wardrobe of one of the girls was minus a gown or a street dress. If you could just get the Reyes family to tell the details of some of these things you'd have a play or a book that would thrill the world. Maybe they'll tell sometime, they say—but the Carranzistas are in power yet.

The crisis for the Reyes family came on February 22, not because that is Washington's Birthday, but because it is the anniversary of the assassination of Francisco Madero, who was almost an idol with the Reyes girls and their mother. A Great Responsibility.

THE responsibility attached to the preparing of a remedy for infants and children is undoubtedly greater than that imposed upon the manufacturer of remedies for adults whose system is sufficiently strong to counteract, for a time at least, any injurious drug. It is well to observe that Castoria is prepared today, as it has been for the past 40 years, under the personal supervision of Mr. Chas. H. Fletcher.

What have makers of imitations and substitutes at stake? What are their responsibilities? To whom are they answerable? They spring up today, scatter their nefarious wares broadcast, and disappear tomorrow.

Could each mother see the painstaking care with which the prescription for Fletcher's Castoria is prepared: could they read the innumerable testimonials from grateful mothers, they would never listen to the subtle pleadings and false arguments of those who would offer an imitation of, or substitute for, the tried and true Fletcher's Castoria.

Children Cry For Fletcher's CASTORIA

Extracts from Letters by Grateful
Parents to Chas. H. Fletcher.

G. J. English, of Springfield, Mass., says: "It was your Castoria that cured my child."

Mrs. Mary McGinnis, of St. Louis, Mo., says: "We have given our baby your Castoria ever since she was born, and we recommend it to all mothers."

N. E. Calmes, of Marion, Ky., says: "You have the best medicine in the world, as I have given your Castoria to my babies from first to last."

Mrs. Albert Uginsky, of Lawrenceburg, Ind., says: "As I have had your Castoria in use for nearly three years, I am pleased to say it is just as represented. My children are both well and happy—thanks to Castoria."

R. P. Stockton, of New Orleans, La., says: "We began giving your Castoria to our baby when he was eight days old and have kept it up ever since, never having had to give any other medicine."

Mrs. Dolph Hornboeck, of Colorado Springs, Colo., says: "We commenced giving your Castoria to our baby when she was three weeks old. She is now seven months and weighs 19 1/2 pounds. Everyone remarks: 'What a healthy looking baby.' We give Castoria credit for it."

DID SINGER DIE OF DRUG? LINER GOES ASHORE IN FOG

ACCIDENT IS FRIENDS' BELIEF

Headache Remedy Affected Weak Heart, Is Credited Theory

Chemist Richard Benzinger today finished his analysis of the contents of the stomach of Miss Mesow and found that the only drug in evidence amounted to about two grains of acetanilid, the headache medicine habitually taken by the young woman. Benzinger declared that, considering the diseased condition of the girl's heart, this was sufficient to account for her death.

"My findings completely explode the suicide theory," declared Benzinger. "She did not swallow enough acetanilid to have killed an ordinary person, and I am convinced that she would have taken more had she desired to take her life. There was no trace of any other poison."

The police will today question Charles R. Allen as to the condition of Miss Mesow prior to his leaving her apartments Tuesday evening, and will ask whether she took any of the headache powder before he left, or spoke of taking any.

That Miss Helen Mesow, the beautiful blind singer who died Tuesday night under mysterious circumstances, came to her death from an overdose of acetanilid is the belief of the police and of the coroner's office. The young woman was in the habit of taking acetanilid for headaches, to which she was subject, and as her heart was weak it is thought that this drug may have been sufficient to cause death.

Frank Mesow, father of the girl, visited the morgue this morning and was much affected when he was shown the body of his daughter, of whom he was passionately fond. No arrangements have yet been made for the funeral. The inquest will be held next Wednesday. Mesow, the father, changed the spelling of his name several years ago to conform with the pronunciation, but Miss Mesow retained the original spelling while pronouncing the name "Mesow."

VISITOR FOUND.

No new light was thrown on the case by the investigation by Coroner J. L. Tisdale and the police today, with the exception of the fact that Charles R. Allen, an automobile man, 1432 Walnut street, Berkeley, visited the apartments of Miss Mesow, 1515 Alice street, on the evening of her death. Allen had dinner with Miss Mesow Tuesday night and left the apartment about 10:30, but she was unconscious at the time.

Dr. J. Alexander worked over the young woman for over an hour before he gave up hope and pronounced her dead.

Allen declared that Miss Mesow appeared to be downcast.

Members of the Mesow family were in conference last evening at the residence of J. Rollin Fitch, 2421 Ashby avenue, Berkeley, following the return from his ranch at St. Helena of Frank H. Mesow, father of the young woman. Mesow arrived from St. Helena in the afternoon.

Fitch, his son-in-law, had made every effort during the day to reach him by telephone, but had failed. It was only when Mesow received yesterday morning's papers that he learned of the death of his daughter. In the afternoon he hastened to Berkeley, going to the home of his daughter, Mrs. Emma Mesow Fitch and her husband.

Mrs. Emma Mesow and Mrs. Fitch also returned yesterday afternoon to Berkeley, having been spending the past two weeks in San Jose on a vacation. It was generally believed by members of the family this morning that Miss Mesow's death

ASTROLOGY IS NO SCIENCE, BUT FAKE, SAY U. S. EXPERTS

WASHINGTON, June 18.—Astrology is branded as a superstition by the department of agriculture in its annual report on weather.

Discussing the question of whether the planets affect the weather the department declared "the belief still to be found in all countries that the planets and moon do affect the weather never had scientific basis whatever. It is only a remnant of the many superstitions generated and fostered by that other greater superstition, astrology."

The department's conclusion on the subject says:

"We have every reason to believe that neither the planets nor the moon can have any appreciable effect on the weather, because they furnish so little heat upon which all weather changes ultimately depend, and this belief is fully supported by weather records."

had been the result of accident, that she had taken too much of a headache medicine containing acetanilid.

"My father-in-law has been at his ranch near St. Helena for at least a week," declared Fitch this morning, "and knew nothing of his daughter's death until he read it in the paper. Any statement that he might have been to call upon Miss Mesow the night of her death or that he could have known anything about it at all is, of course, silly in view of these circumstances. We are convinced that her death was the result of an overdose of acetanilid. The presence of a large quantity of that poison in the stomach, the fact that she had been the victim for many months of very painful headaches and the other circumstances of her death, all point to that conclusion. But more important is the fact that to not one of us had she admitted any intention of suicide. She was naturally of a buoyant and optimistic disposition, and never had been given to any settled phase of melancholy."

Frank H. Mesow returned last evening to his residence in San Francisco.

ACCIDENT, SAYS FATHER.

SAN FRANCISCO, June 18.—Frank H. Mesow, of the contracting firm of Mesow & Morrison, father of Helen Mesow, the beautiful blind singer, who died mysteriously on Tuesday night, attributes her unhappy end entirely to accident.

Mesow was found this morning in his office in the Monarch building just after he had arrived from his ranch in Napa county, where he has been since last Saturday. It was not until last night that he read the story of the tragic fate of his child, and he hastened here in order to lend what aid he could to the investigation being conducted.

Mesow declares that his daughter was being treated for a weak heart by Dr. Charles A. Duke of Oakland. He believes that an overdose of acetanilid caused her death.

"I did not know of my daughter's death until I read it in the paper at Napa last night," said Mesow. "I have been on my ranch at Zinfandel since Saturday and did not intend to return to San Francisco for another week. A pump broke, however, and I had to come back in order to get the necessary materials for its repair. When I reached Napa and learned the news, I, of course, wanted to hurry here as soon as I could."

"I presume the reason I failed to receive the word was that a telegram sent by my sister-in-law, Mrs. A. L. Hanscom, was directed to St. Helena. It was returned to her and then she dispatched it in care of the Montecito Steamship Company at Vallejo, knowing that I would likely return that way and get it there, as I did this morning. I have not seen my daughter for a week and I don't know who the man mentioned as 'Charles Allen,' an Oakland automobile man, can be. I don't recall ever having met him."

Mesow could throw no further light upon his daughter's death and hastened across the bay as soon as possible to see his friends and to learn the facts at close hand.

It is stated that the peculiar chloroform odor detected by those who first saw the body could well come from the acetanilid, which has been in it. Many persons, it is said, cannot tell the difference between chloroform and ether by sense of smell.

SAYS BIGAMIST'S INSANE GIRL TELLS OF LURES

MISS REATHA WATSON, "TOO BEAUTIFUL GIRL," WHO WARNS LADIES AGAINST THE WORLD.

LOS ANGELES, June 18.—"Lawrence Converse is insane." This is the defense of Converse, now on trial on a bigamy charge, by Reatha Watson, the "Too Beautiful Girl," the principal but unwilling witness against him, despite the fact that he claimed her as a bride, with another wife and two children in the background.

"He is out of his mind, or was when he did it," declares the girl, and on this statement it is declared, the defense may put up a strong case. The father of Miss Watson also declares that he believes Converse to have been mentally deranged. Watson declares that a form of amnesia was probably to blame for his predicament.

Occupying the stand as an unwilling witness against the man she married, Miss Watson declared that hundreds of pitfalls beset the path of a beautiful girl in her struggle through life.

"It's easier to get along, but there are more pitfalls," she declared. "Miss Watson speaks from observation principally as a moving picture actress."

She declares that there are two kinds of men who are dangerous unless watched, the flatterer and the man she calls the "cave man." The latter, she declares, is the big athletic, spoiled-as-a-boy man who carries most things before him by his will.

"Even he," she declared, "is harmless, however, if you know how to handle him."

"It must be first understood that I have been connected with the theatrical world since I was seven years of age," said Reatha at her Burbank home.

"Most of my observations have been made in that field, many of them in the world of the moving pictures and some of them along the highway of life where you meet and know all sorts of people."

DESERTED, SHE RETURNS TO FATHER

Bride Who Eloped and Was Abandoned by Heir, Goes Home.

Mrs. Frederick K. Hamilton, the young bride who was deserted by her husband, according to her story to the police, upon his falling heir to a large fortune, has started on her way home to her parents in San Diego. Money was wired to her from her father, R. Conner, of San Diego, for her to return.

Hamilton, who married Miss Bertha Conner less than a month ago, learned several days ago that he was heir to \$500,000, this amount being his share of a \$2,000,000 estate. The bequest carried with it the condition that he must be unmarried. Hamilton disappeared yesterday morning. The couple had been guests at the Hotel St. James in this city.

Hamilton told his wife to meet him in Berkeley. She appeared at the appointed place and waited several hours, but he did not arrive. She then returned to the hotel, but heard nothing from him, and tearfully sought the police.

ELOPE TO WED.

The couple met at Los Angeles in April. Hamilton had been very successful as an architect there for three years. Her father looked with disfavor on his daughter's suitor and warned her not to marry him. Disregarding his wishes she fled to San Francisco by boat and they were married quietly at San Rafael by Justice of the Peace McGee on May 28.

"As soon as he discovered that he had fallen heir to the money he began to act queerly," sobbed the bride last night. "But I did not suspect that he was planning to get rid of me until he failed to keep his appointment with me in Berkeley. Then it dawned on me all at once."

SHARE FOR WIFE?

"I think my mother arrived from Australia on Sunday, and I suspect that she induced him to leave me, and I fear that they have both gone to Boston to claim the estate. In the copy of the will which the lawyers sent to him it is provided that his wife, if he married, should inherit \$100,000. I do not know when the father died, but it must have been before our marriage."

American Arms Are Landed in Ireland

DUBLIN, Ireland, June 18.—Large quantities of rifles and ammunition were landed during the night on the Connemara coast, in the west of Ireland, by Nationalist volunteers.

The consignments were supposed to have been brought by mysterious vessels which had been cruising along the coast for a week, but had not replied to signals. The rifles were said to be of the latest American pattern. Torpedo boats will patrol the coast to prevent further gun running.

At the same time preparations are being made by the Turkish authorities to meet any possible Greek attack. The Turkish minister of war has gone to Smyrna and the Turkish frontier guard has been increased at the entrance of the gulf.

PICNIC UNDER PALE MOON NO LONGER

Hayward Trustees Take Stand Against So-Called "Carousals."

HAYWARD, June 18.—Moonlight picnics will be prohibited in this city in future. The prohibition step in this direction was taken by the town trustees last night, when an ordinance against moonlight picnics was read for the first time.

Complaints about the conduct of certain moonlight picnics in Hayward were the grounds for the action taken by the board, before whom a large delegation of church and clubwomen appeared last night. The women contended that many of the picnics ended in carousals and were highly objectionable. The city fathers upheld their complaint, and it was agreed that night picnics would henceforth have to be held under cover of roofs and away from the influence of the lunar majesty.

Among the women who spoke before the town trustees against moonlight picnics were: Mrs. B. F. Giddings, president of the Union Civic Center; Mrs. F. F. Allen, president of the Hill and Valley Club; Miss Mary McKeever, president of the Daughters of Isabella; and Mrs. G. E. Alexander, a prominent member of the Hill and Valley Club. Rev. Bruce E. Thompson of the Methodist Church, and Rev. B. D. Naylor of the Congregational Church also spoke.

Seek Girl Believed To Have Eloped Now

The police have been asked to assist in the search for Miss Laura King, 18 years of age, who has disappeared from her home, 1007 Cotton street, and who is believed to have eloped with Antonio Pacheco, 22 years of age, with whom she has been seen several times of late. The police are also looking for the man.

The girl was on probation from the detention home. She is a pretty girl, about 5 feet in height and weighing 110 pounds. The report of the disappearance was made to the police by Mrs. B. W. Green, 2229 Dennison street, and by the girl's mother, Miss King disappeared shortly after 2 o'clock yesterday. The police have obtained no clue as to her whereabouts.

ENVOY INVESTIGATES MASSACRE IN SMYRNA

CONSTANTINOPLE, June 18.—Henry Morgenthau, United States Ambassador to Turkey, sent Hoffman Philip, secretary of the Embassy, to Smyrna today to ascertain the position there of American citizens who might be placed in danger by the threatened anti-Christian rising in Asia Minor.

At the same time preparations are being made by the Turkish authorities to meet any possible Greek attack. The Turkish minister of war has gone to Smyrna and the Turkish frontier guard has been increased at the entrance of the gulf.

PASSENGERS AND CREW SAVED

Second Accident in Two Days on German Line

WEYMOUTH, England, June 18.—The steamship Beulow of the China line of the North German-Lloyd went ashore today during a fog near Weymouth, to the west of Portland.

A steamer was sent at once from Portland to bring ashore the Beulow's passengers, numbering 38 first class, 32 second class and 32 third class. The Beulow was ashore on the rocks at the foot of the high perpendicular cliffs dominating Blacknor bay, to the west of Portland Bill.

The sea was smooth at the time of the accident and plenty of vessels were in the vicinity, so that there was little danger to the passengers and crew.

The salvage steamer Siltzer later in the day left Dartmouth to go to the assistance of the Beulow.

KAISER WILHELM RETURNS.

SOUTHAMPTON, June 18.—The Kaiser Wilhelm II of the North German-Lloyd line was docked here today and divers immediately began to examine her hull in order to ascertain what damage she suffered in her collision yesterday with the British steamer Incemore. It was known on her arrival that the liner had a hole in her starboard side. The damage to her upper works was concealed by tarpaulins, but apparently was only trifling.

Arrangements were at once made to transfer the passengers to the Imperator, which sailed today for New York.

The captain of the Incemore declined to make any statement, but one of the crew said both steamers were proceeding slowly.

The first-class dining saloon of the Kaiser Wilhelm II was badly drenched with water and the passengers were compelled to take their breakfast today in a saloon on the upper deck.

A. G. James, of Chico, California, a passenger on the Kaiser Wilhelm II said: "I was in my cabin when I heard a sound like the report of a cannon. My steward entered immediately afterward and began speaking German. I said 'For God's sake get me out of here quickly,' as I wanted to dress, but he caught hold of me and pushed me out, saying they were closing the water light compartments and that if I did not hurry I should be shut in."

"When I reached the deck I found the first and second-class passengers behaving coolly, but there was great excitement among the steerage passengers. The women were shrieking and crying, and the men running about aimlessly, waiting for their hands."

One woman, whom I believe was an Italian, threw her arms around my neck and I had to force her off.

"I cannot understand how the collision occurred, because our fog signal was sounding at the time. We had come almost to a standstill and had just started moving again when we were struck."

MARK JUNE 30 ON CALENDAR WITH RED FOR THAT IS TRIBUNE DAY AT IDORA

"Coming events cast their shadows before," says the proverb, but there are some events that shed a radiance instead—a bright glow of anticipation that carries with it a warmth of interest and makes the intervening days drag with leaden feet.

June 30 is the date that every reader of THE TRIBUNE should encircle on the calendar with a bright red line. That is the day selected by THE TRIBUNE for the entertainment of its army of readers at Idora Park.

Boys and girls, men and women, old and young, will find the gates of the pleasure park thrown open to them on that day without price and everything within the enclosure will be free. The "open sesame" will be a ticket from THE TRIBUNE, and all who come will find a welcome. It is to be THE TRIBUNE'S treat.

Every reader of THE TRIBUNE in the bay region is to be presented with a free ticket to the park, good for afternoon or evening, and free passes to all the concessions.

That means free rides on the merry-go-round, the Circle Swing—it means that the park will operate all its fun.

making devices solely for the pleasure of THE TRIBUNE'S guests for the day.

Here are a few of the things that await the crowds and will make the day one of gaily and joy:

- Auto Tractor
- Carousel
- Miniature Railway
- Moving Pictures
- Ostrich Farm
- Shooting the Rapids
- Scenic Railway

Social Whirl Toboggan Racing Coaster

Readers of THE TRIBUNE who attended the last fete that this paper offered will remember the fun and frolic of the festival, and they know what to anticipate on June 30. They know that this will be one of the red letter days of the year.

They have helped THE TRIBUNE all the year by their support and good wishes and THE TRIBUNE feels that it is doing but little in return in acting as host and holding open house.

Listen! Some lucky guest on that day will speed homeward in a new Mercury cyclecar—a machine that costs \$430 from a dealer. Someone is going to win the neat little car simply by attending the fete as a guest of THE TRIBUNE.

This will be a gate chance to add interest to the day. Coupons will be distributed at the park entrance, and the lucky number will get the car. REMEMBER, JUNE 30. WATCH FOR THE ANNOUNCEMENT OF THE DISTRIBUTION OF THE TRIBUNE.

EVERY MAN, WOMAN AND CHILD IS WELCOME TO THE PARK ON TRIBUNE DAY.

Ladies

We are going to make you sit up and take notice at

J. A. MUNRO & CO., Auctioneers.

If this thing keeps up Ballplayers will be glad to play for \$2 a day and pass the hat to get it."---BAN JOHNSON, President of the American League, speaking upon the subject of contract-jumpers, who threaten to disrupt sport.

Fast Feather Bout Goes to Moore When Fluke Injury Blinds Local Boy

Billy Fitz Says he:

It is interesting to note that Attorney General Webb promises to use the influence of his office in the prosecution of baseball gamblers and that the baseball

through the public press that they will fight the gamblers to the death. The plain truth of the matter is that President Al Baun is the only one who is sincere in these statements. Other ball magnates, both here and throughout the East, are secretly not averse to the baseball lottery as at present conducted. They figure that the system of gambling on the games as at present conducted is such that crookedness is impossible and that interest in the sport is being stimulated. The baseball pool has been in existence for two years and has survived steadily without any special effort being made to suppress it. The pool is on the same principle as the pari-mutuel system of betting.

Four games have been played in less than 24 hours. The first game, between Guthrie and Hayes working in two of them; Phile and Finney in the third and McCarthy and Dashiway in the fourth. Los Angeles defeated San Francisco 2 to 1, June 11; on the Oakland grounds, in one hour and 14 minutes, the fastest game of the season. Umpires McCarthy and Dashiway officiating. Permitt and Pernell, two fast working pitchers were on the mound.

Three times this season have nine inning games run longer than two hours and a half. Umpires Hayes and Dashiway working in the longest nine inning game of the year. When Los Angeles beat Oakland, 10 to 9, June 6, in two hours and 56 minutes. Umpires Guthrie and Hayes and McCarthy officiating. McCarthy and Dashiway had a game in which it took two hours and 35 minutes to play nine innings.

Oakland, Los Angeles and Sacramento have been the clubs which have taken a series from San Francisco. The Seals won five series, lost three and broken even on three. Oakland has won two series from Venice, the only club to turn this trick. Venice has won six series, lost two and broken even on two. Los Angeles has won seven series, lost four and broken even on three. San Francisco has won four series, lost five and broken even on one. The Wolves have won two series, lost seven and broken even on two. Portland has won four series, lost five and broken even on one. Los Angeles has won three series, lost five and broken even on two.

San Francisco has the best record for double headers with Los Angeles second. The Seals have five times won both games of a double header, the last being last Sunday when they trounced Los Angeles twice in one day after a double header. The Seals have won three double headers, broken even on three and lost the other one. Los Angeles has won one double header, broken even on three and lost the other one. Oakland has won one double header, broken even on three and lost the other one. Venice has won one double header, broken even on three and lost the other one. Sacramento has won one double header, broken even on three and lost the other one. Portland has won one double header, broken even on three and lost the other one. Los Angeles has won one double header, broken even on three and lost the other one.

San Francisco has made more double plays than any other club, and in proportion to the number of games played, more double plays have been made against San Francisco than against any other club. Only 43 double plays have been made against the Seals in 15 games. Five double plays in one game is the largest number for any club. San Francisco having turned the trick against Oakland, April 22. Oakland won 2 to 0. Two triple plays have been made, one on the afternoon of May 17; the other by Venice against Portland on the morning of May 17.

Following table shows record of double plays, club and player. Reading down shows number of double plays by each club against each club. Reading down shows number of double plays made against each club by each player. I. A. O. P. S. S. F. V. Total

Seven victories without a defeat is the best club winning streak of the season to date. Venice holding the honors with three wins over Portland and four over Los Angeles between April 23 and May 3. Oakland has suffered the worst losing streak of the season with six defeats without a victory. Losing both games of a double header to San Francisco on May 17. Oakland then proceeded to lose all four of the games that were played with Portland the next week, finally breaking through with a win against Venice on May 17.

San Francisco hung up a season record when the Seals went 25 innings without scoring a run against Venice from June 2 to June 5. The Seals beat the record made by Los Angeles last year when the Angels having gone scoreless for 25 consecutive innings against Portland from May 23 to May 32.

Los Angeles has won more shutout games than any other club, and Oakland has won more than any other. Los Angeles has won 11 and lost 10. Oakland has won 11 and lost 10. Sacramento has won 11 and lost 10. Venice has won 11 and lost 10. Portland has won 11 and lost 10.

Eight games have been decided by 1-0 scores. San Francisco having won 3 and lost 2. Oakland having won 2 and lost 2. Portland won 1 and lost 2. Sacramento has won 3 and lost 1. Los Angeles has won 1 and lost 2. Venice has won 1 and lost 2.

While it was quiet who hit the shots to right which scored Ezzard, the home run in the ninth when the Seals were going great things, and struck out two men.

At least Lefty Leifeld, who, touched

FITZSIMMONS' EYE IS AMERICA'S BIG FOUR IN POLO MUST NOW BE REBUILT

Police Interfere in Last Round When Severed Artery Gushes.

(By THE TIMEKEEPER.) HE stopping of the bout one minute before the end of the tenth

profusely bleeding cut over the left eye of Willie Fitzsimmons gave the victory to Roy Moore, the San Francisco featherweight, at Piedmont pavilion last night. The bout was a good draw all the way, Moore forcing the pace, but Fitzsimmons apparently master of the situation. Few damaging blows were landed, Moore missing hard swings frequently, and Fitzsimmons using only a straight left to advantage. The work of Moore in the clinches was questionable, and he was frequently hooted for bunting and using his elbows.

In the first round the boys opened fast, Moore swinging his left to Willie's body, and the latter countering with straight lefts to Moore's face. In the third Willie started the claret flowing from above, Moore's eye with a hard right. Moore landed good rights and lefts to Fitzsimmons' body in the fourth, and Willie contented himself with directing straight lefts to the cut over the eye. The next three rounds were characterized by Moore's continually missing right and left swings with a hard right, his straight left. Moore continually held in the clinches with his left arm, chopping his right elbow across Willie's stomach and chest. The referee repeatedly warned Fitzsimmons to stop this.

In the eighth, Fitzsimmons' eye, which was injured several weeks ago in a bout at Stockton, was opened, but was not bleeding badly when the bell rang. Moore tried hard to get at Willie's sore eye in the ninth, but was not successful. Fitzsimmons' eye was not bleeding badly when the bell rang. Moore tried hard to get at Willie's sore eye in the ninth, but was not successful.

At the beginning of the tenth, Moore opened up with a right cross which cut Willie's eye. The referee stopped the fight at once, and started a veritable stream of claret. Referee Toby Irwin wiped the blood from Willie's face a couple of times, but it was coming so fast that the police caused the referee to stop the fight at once.

While McLean and George Christian swung each other for ten rounds with no apparent danger either way, and Referee Frankie Edwards called the bout a draw. Up to the last three rounds, McLean was the aggressor, but was not started his right uppercut going, which scored him enough points to even up.

Kid Nabisco showing much improvement, and displaying a good right uppercut, defeated Tony Prietas all the way. Tony was unable to reach Nabisco, although he worked hard all the time.

"Willie Hoppe" the second, was awarded the decision over Whitley Smith in their four round bout. Whitley fought in Stockton night before last, and entered the ring with a bad right hand, which hindered him from using the punch which carried the decision over Kid Nabisco a couple of weeks ago.

Young Turner stopped Young Joe River in the third round of their bout. Turner showed great hitting power. Kid Lucky earned a four round decision over Kid Basco, leading all the way. Frankie Edwards was his referee in the preliminaries, and announced the job very well.

Word comes from London that Willie Ritchie and Freddie Welsh have entered into a "gentlemen's agreement" whereby the loser will be given a return match in November. Ritchie, who won the title, would be no reason why he should not be willing to give the Englishman another chance if offered sufficient purse.

Freddie Welsh had a shade of defeat in the Californian would have a hard time getting Welsh in the ring again, even in the event that a gentleman's agreement did exist.

George Chip will arrive in San Francisco Friday morning and plans to start training within a few days for his bout with Billy Murray.

Johnny Coulon, after sober thought, has decided to retire from the ring. Coulon has been a member of the team for some time in the game, and will live on the income, according to his plans.

Salter Petrovsky and Jack Dillon are clerking for a match in Kansas City for a bout on the Fourth of July.

The bout between Joe Azevedo and Charley White has been mutually called. Both boxers have come to an agreement on weight and terms, and the bout will probably be staged on August 6.

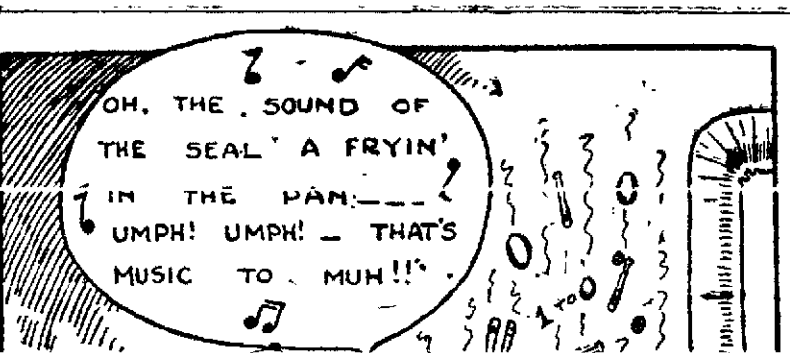

free on Thursday afternoon. Today is also the first kids' day this season. It has been customary for the management to admit the children to the Thursday games free during vacation.

Ray Hogan's men took the second straight from the Angels yesterday. The game was characterized by the appearance of errors in critical places.

The routing section at the Los Angeles games indicate that the southern fans are about equally divided in favor between the Tigers and Angels.

Keeper pitched a ready game. In only one inning, he pitched a game that one hit to be made by the Angels. In the sixth Moore and Ellis got a triple and a double respectively.

One Little Streak of Winning Makes the Whole Town Grin

Cooperstown team, which won the seventh championship last season. Phelps, Webb, Beadestone and Stevenson have improved greatly during the past few seasons and polo followers believe that this combination will eventually develop into a team which will compare favorably with the "Big Four."

Next season Louis Stoddard, who played in the international match last year, will be back in the game, it is believed. Stoddard is considered a player of much ability, and with him and Mulburn as a nucleus for a team, America's

The downfall of the American team is the one topic of discussion at the Long Island clubs. None of the players, however, from today's grueling week-end event Chicago, who has a wreathed leg and Monte Waterbury, whose hand was smothered by the blow of an English mallet.

BOWLERS WARM FOR TOURNNEY

At the mid-week meet of the active members of the Oakland Scottish Bowling club on the Lakeside Park green, four trials were laid out, one being used by four-handed teams for practice for the second match in the series of three for the bay district club championship, the other three being used by three-handed teams.

Three members of the Taylor championship tournament team were on the green, and also two trips of other tournament teams and two other players scheduled to appear in Saturday's inter-club match. James P. Taylor, skip, played as a single against Robert MacArthur, George James and Stanley Fay. Timers, A. C. Hampton, F. G. O'Kane and S. V. Casady, leader of orchestra, Tivoli, were master of ceremonies, Frank Foster.

"Clothes Logic" —From a Successful Man

"USE YOUR CREDIT, MEN!" that's my sermon. There's a store in town that really helps an ambitious fellow—CHERRY'S, who have a beautiful store at 528 13th St.

"Cherry's Clothes—perfect-fitting, distinguished, classy of cut—are the kind of particular men demand."

"EVERYONE GIVE YOU STYLE, and LASTING SATISFACTION—and CREDIT."

"Everyone's after cold cash these days, it seems. Not so with Cherry's. YOUR CREDIT IS GOLD at Cherry's."

"Men who are 'out of luck,' give your personality a show! Don't be

keep you down. Business men are tremendously pleased with Cherry's splendid \$20 Summer Suits. They're the best at the price, that's sure, and all the nobby styles and materials are included. The Smartest of Striped Patterns are at your command at Cherry's.

"Put this address down right now, 528 13th St., where you will find a big assortment of men's clothing. The ladies' store is just across the street."

Locations are 1009 Market and 2400 Mission Sts.

HUSBANDS! MOW LAWNS THIS WAY

Department of Agriculture
Finds Scope for Its Work
Even in City.

WASHINGTON, June 18.—Cut the grass frequently; leave cuttings where they fall and do not use an iron rake unless grass or clover seed is to be planted, is the advice of the Department of Agriculture experts in a bulletin just issued on the proper care of lawns.

Landscape gardeners of the department declare also that lawn mowers should be set high so that the grass will not be cut close. They declare raking or sweeping disturbs the soil and that if clipped grass remains where it drops it will form protection to the roots and keep the lawn in good condition during dry weather.

CURE NOT APPROVED.

Benetel, an alleged cure for hog cholera, has not been approved by the Department of Agriculture, it was announced today. Article printing this cure in the San Francisco Chronicle throughout the country so worded as to convey the impression that the department has sanctioned the medicine are declared to be untrue.

"In this connection it may be said," reads the announcement, "that the medicine which is advertised as good for hogs was advertised some time ago as a means of killing tubercular, typhoid and cancer germs."

WORK FOR JOBLESS.

Its first step was taken only recently when an effort was made to supply cash to the unemployed with between 12,000 and 15,000 harvest hands. Through the co-operation of Postmaster General Burleson notices were posted in 10,000 postoffices telling about Oklahoma's plea for workers for from four to six months this summer. The wages to be paid vary from \$5 to \$25 per month.

NEW RANGE PRACTICE.

Elated by the results of its first experiments the Department of Agriculture today enthusiastically endorsed the "burning-out" system for western sheep ranges. As the name indicates, here or permits his sheep to sleep wherever they wish.

Formerly all sheep in a given flock were driven to one resting place.

"Through experiments on the national forest ranges," the department states, "the lambs from head-on bands were five pounds heavier on an average at the end of the season than those which were trailed to and from established bedding grounds. The range can carry from 10 to 25 per cent more sheep than so much is tramped out in travel back and forth."

Disadvantage to the old system were twofold. Those to the range and those to the sheep. The forage suffered by being trampled badly, and being actually destroyed at and near the bedding grounds; the sheep lost weight in going to and from the camps and in dry weather suffered from dust and crowding.

DANGER SMALL.

"Sheepmen have maintained that the close herding system so long in use was necessary to prevent losses from straying, and from the ravage of wolves, coyotes or mountain lions. Experiments of the service show that straying can be prevented and one hand in the Payette forest, Idaho, which grazed in timber and brush practically the entire summer, lost only four heads; in this, as in the majority of cases, the loss under the new system was less than under the old one of close herding."

The United States forest service has undertaken the reforestation of a large section in Northern Idaho destroyed by forest fires in 1910. To determine whether the destruction of the forests near there has almost caused a water famine in the locality. The flow of one stream, they declared, was cut from one thousand miners' inches—the unit of measurement—to less than 250 miners' inches.

PACIFIC COAST LUMBER MANUFACTURERS MEET

TACOMA, Wash., June 18.—Thirty-five lumber manufacturers of the Pacific coast met here yesterday and discussed the lumber situation. It was stated that the present prices are inadequate and that the mills are at a loss to meet their payroll owing to the unusual conditions prevailing. Reports of increasing sales came from all sides, but the lumbermen expressed themselves as inclined not to go after more business at prevailing quotations.

LUTHERAN CONVENTION OPENS AT BELLINGHAM

BELLINGHAM, Wash., June 18.—The fourteenth annual convention of the Pacific Board of the Evangelical Lutheran church opened here last night with devotional services conducted by the Rev. S. Meyer of San Juan, secretary of the board.

The Rev. J. H. Smith, president of the board, presided at the opening.

ASSOCIATION WILL RECEIVE \$1,000

Contributions to be made and routine business will be considered tonight at the annual meeting of the American Association of Women's Clubs.

OWENS' WIFE ON WITNESS STAND

Rev. O. L. Spurgeon's Alleged
Assailant Calls Spouse in
Second Trial.

DENVER, Colo., June 18.—Testifying at the trial of her husband, charged with nine others with the abduction and robbery of Rev. Otis L. Spurgeon, of Des Moines, Ia., Mrs. Robert Owen today swore that on the night of April 5, when the attack upon Rev. Spurgeon occurred, her husband was at home. She declared further that a party of friends were entertained that night at the Owen home and that the name of Rev. Spurgeon was not mentioned.

Eight other witnesses testified that they saw and talked to the defendant during the time that he is alleged to have been assisting in the abduction.

Mrs. Owen did not testify at a former trial of the case in which the jury disagreed.

Rev. Spurgeon testified previously that Owen was the leader of a crowd of men that entered his room and carried him out of the city and robbed him of \$10.

WOMEN CROWD TO HEAR MISS WILSON

Gowns Are Torn and Bruises
Incurred by Club
Delegates.

CHICAGO, June 18.—The greatest convention ever held by the General Federation of Women's Clubs ended here today with a session of the board of directors. Mrs. Percy V. Pennybacker, re-elected president, was authority for the statement that this biennial was the largest and most important in its history.

More than 670 clubs have come into the federation in the two years since the last biennial convention. Mrs. Pennybacker said, and a new system of representation probably would have to be evolved.

Several hundred women inspected torn gowns and not a few had bruises to show as a result of the crush last night to get into the auditorium for the closing general meeting, at which Miss Margaret Wilson, daughter of the President, was the orator who attracted most attention. Thousands failed to obtain admittance to the hall, police reserves were called out to control the crowd, a number of women fainted in the press and some of the speakers could not get in.

CANADIAN NURSERYMEN DISCUSS FRUIT LAWS

VANCOUVER, B. C., June 18.—A number of important papers were presented yesterday at the convention of the Pacific Coast Nurserymen's Association. One of the subjects discussed was inspection, which was introduced by an able paper by W. H. Lyne, assistant inspector of fruit pests in this province.

M. M. Dean, state horticulturist of Montana, discussed "A Uniform Inspection Law," which he urged not only in the Pacific states, but in British Columbia as well.

An excellent paper was read at the afternoon session by Professor Jackson on "Experiments With Crown Gall at Orenco, Oregon." Jackson is plant pathologist at the experimental station at Corvallis, Ore.

Owner papers included R. C. Truherne on "Disease in Plants"; A. C. Craig, Deer Park, Wash., on "The Market Problem of Fruit"; William Schumann of Vancouver on "Organization of Nurserymen," and C. C. Cox, Milton, Ore., on "Increased Cost of Production."

In the afternoon the delegates were taken for a motor trip around chief points of interest in the city. The convention closes tonight.

ACQUITTED OF PERJURY CHARGE IN BALL TRIAL

MOUNT VERNON, Wash., June 18.—L. P. Johnson was acquitted yesterday of the charge of first degree perjury which was made against him in the Superior Court here in connection with the recent trial of George Ball, who was cleared of a charge of murder in the first degree. Ball was believed to have been responsible for the robbery of a Northern train near Spokane on the night of February 21, when three were murdered. Ball was acquitted by proving that he was in Coquitlam on the night of the robbery and the perjury charge against Johnson grew out of testimony he gave in the Ball trial, in which he asserted he had seen Ball in Sedro-Woolley on the night of the robbery.

PARIS STILL SUFFERING EFFECTS OF BIG STORM

PARIS, June 18.—Paris continues to suffer from the effects of the great storm which swept over the district Monday night and 60 feet of the sidewalk in the Rue de Belleville collapsed last night.

Large gangs of men are working in the trenches made by the flood. The bodies of two children were recovered today from the pit in the Place Saint Philippe du Roule and from the wrecked roadway in the Rue du Havre the body of a man was taken.

U. S. ARMY ORDERS

WASHINGTON, June 18.—Major G. T. Patterson, adjutant general, will proceed to Athens, Ga., to attend the funeral of a soldier.

Major W. S. Guilmard, First Field Artillery, is relieved from treatment at Walter Reed hospital, District of Columbia, and will proceed to San Francisco, thence to Honolulu for duty.

Captain W. M. Russell, Signal Corps, is relieved from duty at the Signal School, Fort Monmouth, N. J., for temporary duty, thence to his proper station.

Captain N. M. Carmichael, retired, is detailed for recruiting service and will proceed to Jefferson Barracks, Missouri, for temporary duty, thence to Little Rock, Ark.

The name of First Lieutenant Talbot Smith, Sixth Cavalry, is placed on list of detached officers and the name of First Lieutenant J. L. Partridge, infantry, is removed from list and he is transferred to the Third Cavalry.

Regular \$30 Suits
Now . . . **\$19.85**

The world-famous House of
Kuppenheimer Clothes, included in the sensational clearance.

PLAY PRESENTED BY COLLEGE MEN

St. Mary's College Exercises
Held; Many Are Graduated.

"The Fatal Brawl," a playlet, was presented by the students of St. Mary's college last evening at the commencement week exercises held in the gymnasium of the institution. George H. Barron, a member of the class of '37, curator of the St. Mary's Museum, was the speaker of the evening.

The high school class students who had completed their course received their diplomas last evening. They are Victor Green of Berkeley, George Cunha of Oakland, Joseph Bergerling of Oakland, Frank Cookley of Oakland, James Smith of San Francisco, Paul Zimmerman, Leo Cunningham of Oakland, William Finerman of Oakland, Harold Meyers of Berkeley, Edwin Perkins of Oakland, Paul Russell of Sacramento, Peter McLaughlin of Vacaville, Harold Madigan of Vallejo, Reginald Cochran of Fresno, Emmet Heinrich of Oakland, Benjamin Donohue of Oakland and Joseph Randall of Concord.

The commercial school graduates are Harry R. Buttner, Richard A. Coulton, John C. Cummings, William C. Cunningham, James E. Fitzgerald, Russell G. Haskins, Gabriel Lachere, Francis D. MacIntosh and Walter T. Sweeney.

Tomorrow night the exercises will be conferred upon the graduates of the department of arts and letters. The graduates will be J. P. Doran, Theodore J. Davis, Joseph J. Gupitell, Frederick T. West, Earl R. Diller and Harold R. Roth. Candidates for graduation from the engineering course are J. R. Gupitell, Edmund R. Randall, William L. Porter and Frank J. Friede.

APPARATUS HELPS MARINER IN FOG

LONDON, June 18.—An interesting experiment in navigation in the fog will be carried out by the Canadian Northern steamer Royal George, which left Aramouth yesterday for Quebec. She is fitted with an apparatus enabling a vessel in the thickest weather, without the aid of compass or sextant, to ascertain her position when she is within the radius of 60 miles of a fixed wireless station or a wireless fitted ship whose position is known.

It is also claimed for this apparatus that should the Royal George pick up a wireless distress signal, she would be able to set her course toward its source, even though the distressed vessel were not able to indicate her position.

FOUND GUILTY OF BUNCOING FARMER

LOS ANGELES, June 18.—W. J. (Nigger) Byrnes, alleged leader of a bunco gang, was found guilty last night of swindling a farmer out of \$110. Byrnes was charged with inducing Fries to bet his money on an imaginary horse race. Lee Rial, alleged by the police to be Byrnes' partner, is now serving ten years in San Quentin for a similar offense.

IDAHO KNIGHTS TEMPLAR HOLD ANNUAL CONCLAVE

LEWISTON, Idaho, June 18.—The Grand Commandery, Idaho Knights Templar, convened yesterday. At last night's session the adoption of a new constitution and by-laws was considered. The election of officers will occur today.

MOONEY TRIAL BEING FINISHED

Many Witnesses Reheard in
Case Charging Carrying
High Explosives.

MARTINEZ, June 18.—With the testimony of many witnesses, three go to the witness stand, the third trial of Thomas J. Mooney, accused of having high explosives in his possession, is being finished here. It was resumed yesterday with Judge A. T. Ames of El Dorado county on the bench.

At yesterday's session Maxwell McNut, chief counsel for the defense, was present and the following witnesses were examined: Gus Gregorius and Jim Aladakis, the two fishermen who sold the boat to Mooney in which the explosives were found; Michael O'Keefe, who saw the boat land with Mooney and his companions; Joe Brown and M. H. Hanlon; Captain Bailey, who identified the suit case which the officers afterwards opened and found to contain dynamite; Police Sergeant R. N. Ruiz of Richmond, who testified to the examination of the suit case and its contents; Officer J. A. Phillips of Richmond, who corroborated Phillips' statement, and Fire Chief Pasch of Richmond. The latter was the last witness of the day. He was at the police station in Richmond when the three men were brought in.

The evidence took an amusing turn when Ruiz and Phillips were being examined and admitted their fear in opening the suit case. The following is the personnel of the jury selected to try the case: Dan McCullough, F. G. Schack, W. B. Munoz, Fred Almond, J. Q. Black, William Frank, Peter A. Piegler, Andrew Mangini, J. J. Anderson and William Eggleston.

"POULTRY KING" CONNELL IS SHOT FROM AMBUSH

SANTA FE, N. M., June 18.—Ralph S. Connell, "Poultry King," owner of 15,000 chickens at Tula Rosa, N. M., was shot from ambush and killed at 6 o'clock yesterday morning as he was riding by the home of J. L. Porter, in Tula Rosa canyon.

Connell, with three companions, was driving cattle up the canyon. As they passed the Porter ranch a shot was fired. Connell fell from his horse with a bullet in his chest, dying in a few minutes. Sheriff Hunter of Otero county arrested Vir Porter and a farm hand named Falley. Connell and the Porters, it is said, have been litigants over a water supply.

Don't Lose Sleep coughing at Night. Take Foley's Honey and Tar Compound. The very first dose surprises you. It glides down your throat and spreads a healing, soothing coating over the inflamed and tickling surface. That's important. It soothes the inflamed surface in your chest, stops stuffy, wheezy breathing, eases distressing, choking, tearing coughs, soothes the irritated, inflamed bronchial tubes and air passages. Children love it. It is mildly laxative—as a cough medicine should be, and does not upset or distress the most sensitive stomach. Refuse any substitute. Contains no opiates. Sold everywhere.
